

Belle Meade -

Dr. Simon Miller - was person who
sent specimens of young *Citrus*
mollis to me

6-15-50

Re Paul Starcher -

Memo on P.S. found in Gold's home.
Must have been on occasion of one
of Al Slack's trips to Charleston.
Slack must have given this to
H who in turn copied it
& gave it to Sam. This probably
when Al was in Rochester.

H does not believe if matter
re P.S. was followed up.
This may have been given to
to H in Ky. Al may have
gotten this sometime between
Cincinnati & Ky.

Sam prob. told H to tell Al
to see what else was down there

John Humphreys - also at Carbide &
Corporation, or DuPont Co. More likely
at DuPont & Slack considered him
much better source than Lockman.

W

29-15 Airline Schedule

While at Proth, Ate maybe in
midwest at Keyes - H may have
planned trip to midwest

29-9

Jack Bruin, - H knew as
Joe Brodsky - a Philadelphian.
H once considered him as a
possibility for a recruiter. H
doesn't know if he ever landed
in anything or being but prob. did.
Used to bother H for contribution to
Commie front, doesn't recall names of fronts

H knew him at Breyel under right
name. Bruin studying chess engineering.

This submitted about time Fred
was talking H. Probably typed
by Bruin

Name Bruin prob a party name.
As far as H knows Bruin never
used. Maybe someone else used
him. They both new to start at
Penn Univ Hosp.

Bruin was in the service. Is married.
Maybe lives in neighborhood of
Vet. Hosp.

Re Dan Kline material -
All hookum. Many of the
ideas - Dunes, etc. - were suggested
by Fried.

Kept these papers made to
remember the lies.

Period etc from New York were
Fried's ideas.

Kline was school mate of J. P. -
H. may have seen Kline somewhere
twice in his life.

Reports written in summer
7 1938.

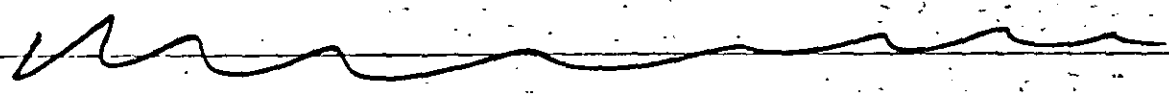

Re Herbert Epstein
not exist.

Mrs Epstein 2400 block of
S. Pulley St. Was good friend
of Mrs. Galt. Her 5th daughter
Lattie. Mother used to try to
make a match between Lattie
& H.

6-15-50

C. B. - Probably mostly true. C. B. may have been connected with Hutchins movement, & sometimes would a line or two. May have been to verify a residence. May have been to determine if C. B. home at certain hour.

H. did not have friends who were Trotskyites.

Epstein - pleased summer 30
to late spring. Absolutely
frustrated. Some truth concerning
Shirley Owen. H. was seriously
contemplating marrying S.O. & would
to drop whole business of her, &
therefore was preparing Fred for
that eventuality. Shirley did
go to Atlantic City with another
man & couple. This caused H.
great jealousy (as it was intended
for Mrs. G. who was real enemy
who was friend of Mrs. G. H. had
gone to shore with latter. Mrs
G. & Mrs. G. were always
collaboring to get to the H. together.
Mrs. G. did not approve of H. going
with S.O. Mrs. G. thought S.O.
too unstable person. H. did
not openly express these things.

Shultz - Invented by H for
Stevens. Purposely printed dis-
cussing picture. Steve didn't press,
but Fred opened up whole
business. Show H wrote the
bookman for Fred.

Fred then pressed H for
others + Epstein dreamed up +
invented the story about Kline.

6-16-50

Re Fucho -

F told H in summer 44 that his sister in Boston was considering separating from her husband! She was having great difficulty & she was thinking of coming to N.Y. F was thinking of lining up H & K H if she came to N.Y. Submitted this for H's approval. H said he would not take this up with John but never did. Later told F that he had taken this up with John & it was ok. F knew K F was attached to K H & chided against some petty official would veto the idea, so H took it on himself since he had such strong feelings about family relationships.

No recollection of having reported Mills to her busper to John, but very well may have.

Fucho was not given to going, stuck to business.

H gave open style wallet to F in Cambridge. H's dough no reimbursement. F not too happy about it, cost \$8.00

Re Yeenglass -

When I mentioned about recruit,
he mentioned a G.I. who had been
busted from sergeant & had been
sent to the pen at Lawrenceville. They
then said he would listen to H's
advice & not try to recruit anyone.
This was during the morning talk (no songs
'till afternoon.)

646

Re Slack

Saw him Dec 7, '41 maybe
Longhorns 38th 5th

Then went to meet Sam up on
5th Ave. Sam & Al went out of
H's sight for about 20 minutes &
half hour. H then met Al ^{any way}
Wassail to eat. Then H took
Al to Grand Central. Al went
to buy tickets & Harry waited at
my booth. Al returned & said
H about Pearl Harbor.

Introduced Al Slack by right name
to either "Simon" or some other name
that had dreamed up.

Slack had been to Charleston
to see How Gork re nylon

The North Billy meet also occurs.

H was not told by either what
was discussed between the two.

Sam later told H that he thought
Al would be more at ease if
H not present.

Re Brothman -

Connert's money with both
Chemurgy + Handficks. \$50.00 would
be top sum. Expenses were for
addit blue prints which Abe had
to have made.

One laugh Brothman's Voigtlander
at Kleiss + Goodman in Phila. -
some possib, that Slack got it
for him. Late summer of '42
\$40-50. Hard to get.

Also once gave ^{was} Kenfel + Esser
six inch Idole rule - \$6.00.
Maybe Christmas of '45. They
were difficult to obtain in those
times. I gave to Abe
because H had not seen him in
some time because:

- 1 - Busy with Quaker
- 2 - H had told Abe he was
trying to get legit booking for
D B A but had not done so.

Sam often suggested that gift
be given.

Never reimbursed for these gifts
as Sam + John didn't know H
was seeing Abe.

Abe might have dropped hint
to H that he needed expense
dough.

March 12
Buna-S² while Abe at Hendrix
mixing equipment while Abe at Tolwin,
all was stuff Abe worked on at
Hind

Sam interested in supply of
lube oils & colloidal graphite
& both once told H. that Tolwin
owned a colloidal graphite plant
around Houston. H. urged Abe to
get info, but Abe never did.

As far as lube oils went, Sam was
particularly interested in substituted
for petroleum products otherwise
used as lube oils.

3 dry runs before meeting Bell-
over period of month to six weeks.

New arrangements were necessary
every time.

Two of the 3 occasions, Sam
showed up instead. None of
them near Church St - H must
have been uptown. Times sq to
Columbus Circle.

Third time - Wall St area. No
one showed up.

Miscellaneous

On Day St, not far from Hudson
Town is "Sabbell's" restaurant.
H met there once with Paul, &
quite a few times with Steve.

Broth - (Cont)

One of the other times - Sam told
H he was not to see Broth, then
later told him he was.

1st meet with Broth - drove to
Bedford - Abe did most of
talking. This Bedford maybe on
west side of 6th or 7th between 34th
42nd. If not Bedford, another one
near York.

Comments mostly to do with advance
of German Army thru Russia, & no
joint in trying to summarize Russian
losses or defeats.

Broth once told H that

- 1 - Handuck had made first Jeep
- 2 - Abe had designed a turbine
motor for aircraft while at
Gen. Abe turned this over to
Galen or Helen.

Moskowitz may have been present
during Abe & H. Connes. re Koopman

This occurred in car on way
to Peekskill. Late fall 46 or spring 47.
^{one weather}
Michkin

Most knew what they were talking
about.

Started with Koop's attitude toward
atomic energy, - loyalty to U.S., + what
Koop + others had accomplished.
Went on from there to Abe's talk with
Koop re F arrest, then Abe's tirade
against the big headedness of these
knee-deep profs of math who had

1. - Been given a little bonus in
salary - \$400 up to \$5400. - given
cards which entitled them to
quarters on travel all over country
& were welcome at research stations
anywhere.

2. - Who had become the subjects
of public adulation.

3. - Now these people look
down on Fuchs.

4. - Made statement that he (Abe)
was through with Koop.

Abe said he had had lunch with
Koop + said "I was never so disgusted
& made almost sick in my whole
life. The matter of Dr F came up
(Michkin was at the lunch with Koop)
(" laughed in car when Fuchs
name mentioned) then Abe said
" I pronounced Fuchs out went to

spell it for Kory + spelled it for

Kory had said "I never thought
that a man of his calibre would do
a thing like this."

V. Torianovich's business came
about in following manner

1 - Early June 46 Protts came
in one morning all by itself + wanted
to know if HO had any info at all
on any of synthetic vitamins, we
were before of the B complex.

H said did know something about
info of them. Abe said OK

H asked him if he knew Tremble
patent restriction by Mensch +

Hofmann-La Roche. Abe didn't
care about that. Day or two later

Abe sent H + Maschke to visit

Chapin, an American in his 60's
no chem knowledge whatever.

Maschke + H met Chapin at
a club. Huv. eq. Nothing came

of this meeting. Chapin was supposed
to tell what was expected. His firm

was for Poland. Chapin just wanted
to know whether they could

make them. Later Abe found
Chapin was a mild man from

Antony. thru jobs, Kuchner
+ ~~James~~ Needham, some man

An American came to USA, who
had worked for a firm which made

fresh oils. This guy had the chem knowledge
wanted Abe to build the plant. There
Jules Kouchin or this guy or
possibly a man who used to be
Chief engineer for ~~some~~, was one
who got Abe introduced to Fedorov.

Abe was in great glee, & told H
they had date next day to go to
Antony, & talk to man who
was interested in building these
plants. H put up a bluff, -
H didn't want to go near Antony.

Abe said it was waste of time
going Russian way, - they went ahead
& bought stuff anyway. Abe belittled
H's ~~exp~~ work. However, next
day they went to Antony.

Spoke thruinterp. Fedorov
no speak English. wanted
B₁, tyamine + B₂ proflavine
nicotinic acid, pyridoxine
& ascorbic acid. Explicitly
anxious to avoid conflict with
any existing patents structure.

Abe & H made extensive little
search & drew up route of
synthesis which avoided existing
patent structures & made estimate
of the equipment needed & the
cost.
In beginning Abe decided they should

he paid for report, but on consultation
with Needleman, dropped the idea for
fear it would jeopardize whole deal
Fredson. Left for Russia in Nov 7
46. His place taken by another man,
who told ABA very bluntly, that they
couldn't consider the proposal because
ABA had never built plants like
that before.

Fredson was expert in field
of foods, traveled all over U.S.,
buying, carrying equip. & other
making medical food preparation.

On occasion of Bob's meet with
Fredson as Anthony, enlarger was
called out of room, & Fredson
said, I will try to continue in
my little English, which he
did very ably.

2-17-50

Re Steens (N.Y.) ^{spring 1943} dictated reports on annual
got in touch with Block at last
recount. Block got this Steens thru her
brother or uncle. She was still at
Steens school & working for State
Labor Board.

Would meet her in Newark Station or
in Penn Station. They then went to
office of Chemurgy. It made it a
point to get her over as far as
Newark.

Sam didn't know about the Steens
or if he did, Sam thought it was
Block who got the Steens.

H. probably first met this girl in
Newark. Paid her \$10.00 ^{per week} per evening
out of H's pocket. May have borrowed
money from Blo partly the time to pay
her.

H. doesn't think she was curious
about the material. She had some
kind of fear that it was out to make
her. This was far from H's mind.
May have attempted to tell her that
he was married.

Owed her for a week or two when
stopped using her. Maybe Block
eventually paid her.

Block knew Steens was not a Soviet
or Soviet sympathizer.

3

She typed up stuff Brath dictated.
H. never turned it over to Sam,
Sam didn't want it.

She may have lived in Hockinson.

~~Albuquerque~~

Tele on tely flock for dough. Maybe
flock sent 20 books.

May have made the call from Chicago
& told Pl to send him the dough at
the Hilton.

Used tel. service in Palmer
believes it was in Sept trip.

H had returned to Albuquerque
from State F2 before money
arrived.

Sept 19 at Hilton

Sept 17 at Palmer

Probably owes flock nearly \$500.00

Slack -
recalls Slack brother lived in
Clay N.Y.

Met him only once in upstate
N.Y. - Treble in Buffalo.

Two other rumors - early in 41.
One of them near R.R. station in
Rockwater. Other in Buffalo, - near
R.R. station or maybe on street.

These were very fast meetings.

Leo C. Penn
In item 29. - may have been a
Trotskyite whom I was asked to
check on him. Maybe by Black

Carl Bushman - (C.B.)
Fred asked H to check up on C.B. -
may have been a Trotskyite.

Griff Paen
Prof Penn

Strike at P.S. 1939 - Feb - lasted
about 5 weeks. H refused to work
there during the strike. Afraid of what
Stevie might say. H worried
about getting his job back. Rich
got real mad & said H was
three in chemical field.

6-18

Black #
H believes answer to Bl activities
may be at Nopes. Ernie Segerson

Bl said Hoffman - LaFolke were
like a gentleman. Also said their
commercial payments very productive.

3- H says if he could meet
Bl and personally appeal to him
Believes would get of some value.

Find out people at work whom
Black knew well - Nopes.

Black in Tratabytes - One guy
who Bl said was Trotsky's principal
agent in U.S. Used many aliases
about Black's eyes.

Black used to tail this guy & saw
him get in a car. Got license number

Black dreamed up following story.

"I went to Trenton to Bureau of
motor vehicles - said his doc
had been run over by hit & run
but Black had license number
Trenton gave him name & address
Jersey license & address -
Madison or Orange.

George was Semenov's name
with Black.

Pretty sure Black was interested

in going info for biological warfare

Item 29.

(H believes he had letters from schools & doesn't think he turned them over to Fred because Fred might think of some reason to send H to K(27)

Jan 1929 - at Penn Sugar.

Norris Ruckman - Chem Engineer, PhD, from M.S.T. Young man 24-25, Ruck had hired him because he worked on CO₂ recovery. Norris left Penn Sugar to go into ^{patent} business. Father was patent lawyer with York.

Re schooling - H had decided to continue to work for at least another year. At Circinnati, they wanted H to take the 1 year coop course. Notice. The 7 can also critical of H's credits, wanted him to start as a Freshman.

H thinks the reason for quarrel with Fred was that latter was happy H had not had success at Circinnati & prepared to see H wait a year for following reasons:

1- The Fred could advise H to go to Mr D T - way yard

2- That H could continue to work for them for a year more - many of recruits. - Fred really bitter when found out H was really going to school.

④ Amy's Process - material written in 1938.

Mutual friend - Steve

Report on process written for Fred in summer 38 during July strike.

Amy's Alcohol - Amy was some for powers to deny Amy's Alcohol.

Steve must have asked H about it at one time

Fred gave H list of things he was interested in. Among them:

- 1 - A firm around Lancaster that made simulated leather furniture
- 2 - Amy's process
- 3 - Medical info

6-18

Lanolin

① Arthur Colman - Colman's & Gold family friends. How was supposed to study medicine but went into bus himself, i.e. Phila making hard rubber products.

Arthur went to med school, Hahnemann med school, grad with honors, now in practice near H's home.

Nothing further on Lanolin process. This occurred when Arthur was a senior at La Salle. 36-38 period - maybe even 1940.

H probably told to keep his eye on you for anything of a medicinal nature.

When Russ visited H in Oct 49, he wanted to know from H if he knew of any cure for cancer. I said "This would be more simple than anything you ever did." H said he knew of none, and doubted if one existed.

6-18-50

- ① Continuous soap making process used to ropes. Advantages were:
- 1 - Much decreased amt of equip & floor space necessary to operate
 - 2 - Saving in raw materials due to fact that superfluous was complete & when excess raw material
 - 3 - Glycerol by prod of soap making could be separated & used up, much higher quality (dynamic grade & better) than older process.

This is an exper plant built for ropes - (L. E. Pfling Co - Ind. Clayton)

Block had been given this assignment & had reported it to Soviets. Block gave H assignment of checking reference.

This sheet is instruction from Beach to Hony

H's handwriting on page was looking up some of the material for H.

6-18-50

Item 29

⑤ Work to be done on fuel gas

Next meeting April 30" refers to next meeting between H & Fred (Proc 38)

Dates refer to:

- 1 - Date on which meet with Smith
- or 2 - " for actual completion of this work

This plant was never operated.

This is what Fred got H. involved in through diffusion

⑥ Chula Vista Ford News

1 - Request from either Steve or Fred to get them a list of journals about navy affairs - particularly what type of articles are published - who comes published -

2 - Obtain names of reputable navy architects for legal work

② The Military Engineer.
About 1937. Got the info from Public
Library for either Star or Trail.

They wanted to place orders,
& check on what was happening here.

Brothman.
New Yorker Hotel meeting

He spent whole night with Abe in
New Yorker. He rented the room &
they completed Brothman's report
on Bond-S. Worked till 6 A.M. -
Abe typing on his portable. - He
checked. Abe went into ~~the~~ ^{the hotel room}
in the morning & returned about 5:00
& gave H more material completed
report. That evening H turned this
stuff over to Sam. Late March
Very early April 1942

May have met some Henry
Greenberg or Frank Keisler. Maybe
even Harry Gold.
Tues or a Thurs.

H. was getting carbon copy of
this stuff. Pres subject
because it was for ¹² ~~12~~ ^{sub} ~~sub~~ ^{units} ~~units~~.

Lincoln Hotel meeting

Jan 1943 to end of Jan 1943

H doesn't know what name he used - Keeler, Gold, Greenberg

Jan 1943 seems likely.

Commodore Hotel

Sometime in '42, Abr working for Chemurgy. Abr supposed to work on something like magnesium powder.

H registered as Commodore & nothing was done, H waited all day - Abr came once & told of his troubles with Banach. Fruitless done.

5
6-19
Slack -

Purpose of card - Developers -
sample of chem for Kolochroul.

Have address - while at Rochester -
middle of 41 - at Rochester -

Doesn't know who wrote it down
not any questions asked - supposedly
a letter drop.

Can't recall whether Al sent the
samples - maybe did. - May even
have a letter to that address

5032 Boulevard Street

58-59 - Gathered this material for Dr. Reich
for CO₂ recovery at Penn Sugar

63 - 4716 "D" St. - Clarence ("Mike")
Hunt. Worked for Penn Alcohol Co.
Philadelphia address

Bill Angus - VIP at Penn Sugar -
Traffic mgr. always pointed up
to Mike as a success.

Phone was in Angus' name

Mich 3-0761 used to be Clarence
Hunt (Angus) phone number

69.

1 - Pope's employee
Zeyher Mfg Co. -

2 - Bring card out.

3 - Used to buy a lot at Womans

4 - Mr. Brewer. Shoen (Sy) Silber-
stein worked in lab, cut hand
badly. He took him to Brewer.
Brewer's office near Plunkhust
Lab of A.P.C.

Brayford

Hann - (lost at end)

5- Supplier of ABA Labs.
(2L5800)

6- Republic Filters. Had to do with
an idea Tom Block had for
pumpjig (removing bacteria from)
various solutions. This firm
supp equipment for this. In
case Tom & Harry ever went
into business. Maybe got the
card as one of the Chem shows.
H. proposed the idea to Brothman
but nothing ever came of it.

7- Leick. H bought overhauls
& laboratory tubing from them.
Tubing for Penel Geyer.

8- Did business as Brothman.
A Mr Geyer, old Bill Geyer -
may know a lot about
Block. Block was a customer
of Geyer.

Rabbs is salesman for Geyer -

9- Bring card out.

10- Oberweis

11- Lennox - Howard Halthe
no significance.

12 - Maybe phone numbers of
South Philadelphia school children

61 - Address where H's uncle
used to live. S. Omenski

65 - Montauk way sample. While
at P.G.H. H & Block interested
in it. Wanted to interest
Eddie Quick in it on mfg
of gold leaf.
Byron maybe Phila papers

68 - May have picked up at Chem
Shows Grand Central Palace
Exposition of Chemical
Industries.

53 - Cold Christmas ^{prior to 1942} (Cold List)
Joe Huber - Penn Sugar
Marie Hunsicker - Reck's See
Joe Bowen - Penn Sugar - Mail
Ronald J Baird - P.S.
John B. Adams, Jr. - Penn Sugar
Art Summers - P.S.
Walter Reible - P.S.
John H. Pittman - P.S.
Lyle E. Fox - P.S.
Sam Fleming - P.S.
Walter Kachel - P.S.
Chas Zolner - P.S.

Dewey Dobkiewicz - P.S.
Joe Galli - P.S.
Reg. Lookabaugh - P.S.
Richard Bowers - P.S.
Cecil Selbart - P.S.

66 - Index kept by H & Doc
at Plum Super

27 - 2127 Lorain St. Block used
to live there. Sarah Hersher
a relative Jack Gass
H doesn't know Sarah Hersher

16 - Chem associate - Man who
entered H for job at New York
in 1946

17 - Fighi Schurman - Plum Super
& Brothers Supplier

10 - Tried to get his wife's job
there. Doc gave H Beckman's
name

11 - Krause - Intern in Phea
General Hosp. Knew him thru
Geo Clough. Looked up fact
for Cancer Research Fellowship.
Took a picture of H in the
lab

9 - Mr. Meyers - called H some
months ago when Meyers is

Phils. Great Myers Clinic Hosp.
Philippe, W. Va. wanted to know
a chemist for hosp.
One of Myers' relatives was an
interest at P.G.H. gave Myers
H name & phone number

8 - Q.M. Depot, Phila. Joe gave H
the names re a Civil Service job.
H never applied

64 - Merio Rabacchi - Dr. - worked
with H at P.G.H. No connection

29-8

Joe Aylward - classmate at Xaver

Bill Connelly - Classmate

Orles Mc Courcy, Jr. - Classmate
H tutored this man

Dan Yusaick - Old school chem
in Phila.
(Called Danny the Goose)

John Kover - used to work in
Penn Sugar - now drives a
truck

Vera Kane - used to be friend of
Block & Heller. She is a
lawyer

Ed (Izzy) Lieberman
2530 S) Marshall St. - School Chem

Al Splen - School Chem

Fanny Sill - friend of Sara Oken -
tooped her out once with
Sara

Dr. C. F. Wheeler - (PhD) Prof of English
at Xavier

✓ Vera Kane - Tom & H discussed
blue printing with her before Paul
Smith came along. Vera may have
known someone at Antony. She
comes from around Utica, N.Y.
H. last touch with her around 36,
hasn't seen her since.

✓ Block was fond of her - so was Gus
Heller. She didn't care for Heller.

Veronica Kane - may have dropped all
connections with any radical movement.
Except where family disputes

✓ 1st saw her in Sept 1933, in Learning
Hullough just as time H left Holbrook.
Saw her again in 1934, 4 or 5
times in 35. Vera was essentially
an Anti-Fascist - maybe not Chamber

Chascon - ^{Hiram Village} 8th-9th St.

Vera knew in 1935 that Bloch was turning over info to Soviets. Question of H turning over came up. At Vera's age with in visit with Bloch that this matter was discussed.

✓ Maybe thru her that Bloch met someone in Amtorg.

Business like discussion concerned how H could get blue printing done (Pen Sign) without anyone finding out - Hudson Blue Printing Co. forwhe down town. H was eager at that time for 2 reasons.

- 1- Gratitude for Bloch
- 2- Desire to help S.O.

✓ (Ernie Segessman knew her thru Bloch. H still thinks Ernie O.K.)

✓ (H says his reluctance to tell about Vera was fear she might lose her job.)

H tried to get in touch with her before he went to Chascon.

The task Tom & H to see "Working for Lefty"

✓ (H didn't know how Tom met her, but Tom knew her a year before H. Maybe thru Ernie Segessman or Fred Heller. Prob. due to some interest in Liberal Movement.)

H has asked Tom many times
as to whether he has seen Vera.
Tom very evasive.

She is prob. around Tom's apt.

She may have lived in Chelsea
for Carter's Hotel on 23rd. Suitcase
was not made in her apartment.

She did not know they were
making it. Tom once told

H, after H started to see P. S.
not to talk to Vera about it. -
Don't let on your're seeing anyone.

Richard Greene

6-20-50

Dorothy Greene - rented apt. for her on 44th St. Woodside L.I.C. Met them thru Phil Levine. The women went to L.A. Phil had a regular apartment. Greenses introduced H to the super.

1 B-5 (33) Sum checks from Brothman repaying Edw. J. Kelly - boss brother in law. Edw. J. Kelly for M. Keenan and Paul estate firm Phila. 15-32 Point Breeze Ave. Ed finally repaid by \$ in cash. Wash. City Bank & City Branch borrowed the money from Kelly for Brothman. Two such loans.

(34) Letter from Bob & Mookie. Stamp removed by Vago for his son

Dr. Pom (Pomerance) was a Pole or German, living in England, a British citizen. Pom was a promoter. One of people for whom a demonstration was put on in Elmhurst Lab.

mom & Pop - Mr & Mrs. Moskowitz Herb & Harry Cohen - shared apt with Helen

(35) Letter from Bob - Alternates synthetics had been developed at Lab. - raw material for Lucite. Lounge turned down the alternate. Mr. told them he had another version of Cyanophin process

and wanted her to work it out.
Brothman wanted a new process -
quick.

36) Letter from Elith Levine, Phil's
wife. New job for Phil.
Harry prod. visited them in
Woodside.

37) Newhouse Hotel, Salt Lake City
Abe's know where envelope
came from. Blank statement of
money due H & Phil from Libe.
Can't recall where or who typed. Might
have come from Eddie Qureshi's office.

39) Letter from Butch - Mar 31, 1948
H borrowed money (\$27.05) from
Butch, to pay rent.

41) Letter from Oscar Vago.
Oscar inquired about subscriptions
to Chem Journals - wanted to send
some to relative in Hungary.
Bernad Pido - once widowed 40's
by Brothman.

Edu. Narayan - was going to buy A.B.H.
Michael Stator - Operated Stanton Lab.

In Phil's Lab, Abe built
a plant for him.
Jimmie Jaffe - Chem engineer who works
for I.P.E.
Sherif Padesse Equig -
N. New Jersey

Abe in Phila on Stanton deal from
Aug or Sept of 48 to Feb or Mar of 49.
Staying at Ben Franklin with Maxie
& Bill Rowhall

vector, Oscars Brather-in-law (Cuppa
brother)

By Lesser - friend of Oscars, wanted to
stay at H's for Wallace convention

(42) Letter from Phil Levine as Starrs -
Comptroller Phil taught Chem there
summer after he left Yale's
Univ. of Connecticut
Abe concealed income for tax purposes

(43) Letter from Phil Levine -
Hoffman - Lawyer
Hartford - Phil tried to get a job there

(44) Letter from Phil - re money owed
by Brathman -
Roman Hess - H tried to get a job there

(45) Letter from Dougherty - May 15, 1945
Clair Bleyman - Tech at Penn State

Brathman must have wanted info
Doc knew about it & thought maybe
some money. Legit.

George Carl Vogelbein works for
Bridle Co, Phila. used to dubite

Abe thought they could enter Abe
in the real depression

(7)

Letter from Doc May 24, 1946

Alvin Crankshaw - Doc's boss

Block's evasiveness regard to Prothman
Tom was leaning about having ~~been~~
around - might get away.

Remond Pebles - P.S. employee. Went to
P.S. New York Office.

Clarence (Mike) Hunt. Doc
borrowed a car from him, to put on
front that Doc had a car in order
to get job. Hunt used to work for P.S.

Pat's Pat Careys Saloon, Grand
Ave, just east of Frankford.
Hangout for Penn Sugar gang

Ernest Helming (Cochey) P.S. employee

Canarius - Helped Mc Cabal visit
Came in distillery premises at St.
Joseph's College.
#4 Doc wanted to get over to Panama.

- 1 - Flamm Diffusion
- 2 - Removing bacteria from
small slurry

"How about Tom?" Same Block.

It had told Doc that Block just didn't
want to pry into things. # trying to
cover up for Block.

Re Black

Visited by Rabinowitz, Red Cross rep.
of USSR.

Tom had told H that one of the
"brothers" was up to see him.

Re Brothman

Sidney Kirkpatrick - editor of Chem +
metallurgical engineering, now called
Chem Engineering. Brothman published
most of his stuff in Chem + Met. This
outfit (Kirk) once mentioned that
Weylich might put dough into A.B.A.
Broth told this story to H. Weylich
was running own firm at that time.

Broth also mentions a Mr. Truebeck
at US ^{Production} ~~Pro~~ who formerly was partial
owner of Franco American Chem
works. Broth in 1929, later super
of plants. However later bought him
was entirely.

Most of info Harry got for Paul +
Stev was from Franco American.
H. never explains this connection
these efforts of a man called Charles
O. Proctor, who writes a column
in Indust + Engineering Chemistry.

Abe knew Brown, Brown talked to
Truebeck.

NY tel - June 19, - 8:06 pm

Used to ask H to use his influence with Soviets to get legit jobs for Abe

(Abe's material in prison)

Abe told H that he used to be roomie type up stuff for Naom

Abe said he had given John a lot of info about this super turbine engine at Hank's (Paper after dinner?)

Abe told H shortly after meet that lot of work had been done with John. Helen's gone too well with Helen said. Jobs would be better with Harry, a chemist.

Abe knew H was Soviet agent, & knew he succeeded Helen

1st 3 or 4 meets they had.

Hotel N.Y. Meeting - March - April 42

Abe told about troubles at Polun... Concerned people who should be paid back - rats, people who had agreed against S.O. Both said someone had turned over a list of Y.C.L. to Dean in return for being admitted

In Med School, both names on
list. Abe said he threw the
root down the stairs. H then
told ~~him~~ Abe about ~~aluminum~~
finger as Wright fell (but
only one name Smiley)
H said this man had accepted
money from SV to put him thru
M.D.T. H later got in trouble with
him & he denied all knowledge &
threatened to turn him in. Smiley
wouldn't give info to us.

Very early in acquaintance Abe
told H that he was so glad
to see him since he could again
begin furnishing info for SV,
which was the only true fight
against fascism.

H will offer to get H info on
powder plants designed for Atlas
Boulder Plant. This occurred about
third week in Dec 1941. H waited
for him at Pickups, near Dept 50th
or 51st St across from Lower Theatre.
Maybe 22 Dec - work day.

H was to get info to Sam for
subway station platform at West
4th & Washington Sq. Abe didn't
show up. H took cab & got
there late. H saw Sam who
had just gotten on sub. H holed
in next train & rode to 14th St.
Sam was waiting for H on platform.

①
also had info
on

Sam left briefly at 14³⁰ to see someone who was supposed to pick up the prints & have them returned.

I was excited but Sam took time to Ferris wheel for drink & sandwich

Right after this Abe started proving Bunsen-S. material

On New Years Day 1947, I waited around Day Street for 1-2 hours to hear complete story from Broth or Sam. When Abe did show up they drove up town & Abe dropped H off near Benni Station. I later found out from Abe that Abe had just begun to work on Bunsen-S.

(2) Powder plant was volunteered by Broth as a result of some disgust with earlier fragments ^{of vamps & debris} which Abe had tried to submit. Powder plant may have been in Chattanooga.

I told Abe about incident when I had large roll of prints copied in matter of couple of hours. These prints pertained to butyl alcohol.

Abe used to take legit work home from Hendrick to work. Known help on it - typing, photostats, etc.

I told Abe he was being pressed for info from S.O. to get info and Abe should elaborate on fragments. These were parts of equip
1- 4 things which for reactor vessel

- 2- Stuffed box design for Penthouse
- 3- Synthetic design for Penthouse

H gave Abe glowing verbal report on way Buna-S report was received by "us" "S.U." or "other side". This was month or six weeks later.

When I was going for Army Physical, told Abe he was going to Colby, & would be contacted by someone else.

told Abe Buna-S rubber will receive by Engineers on other side, or S.U., & would be immediately put to use time it was complete.

Meeting in Lincoln in following room
1- Just got Abe to do further work on synthetic rubber part rubber hose. Abe got to work for big rubbers, or go to work for some big firm.

2- Built up his ego & desire to do work for S.U. by having him meet a recently arrived "imp. official".

3- To thank him for the work he had done on the Buna-S & the mixing equipment.

Broth was told that Sam saw the material or knew of it.

Sam made a slip & called H

"Harry" instead of Frank. Wine served in
room

Later when H went to work for ABE,
ABE said he had suspicion that Frank
wasn't the only name that H used, & ABE
pointed out incident in Lincoln.

When H met Miller at Belle Meade
H used name Harry Jones, but
was present

On night H told ABE he was going to
work for him. H said he had to
clear up one thing, matter of his
name which he thought was
H G or F K. Occurred in office on
32nd St. Jersey May 46. ABE said
he thought it was F K. H told
him he guessed wrong.

While ABE at Chemurgy - late 43
or early 44, ABE asked H if he
knew anyone at Antorg who could
get kind work. H said knowing
would make inquiries. ABE's
idea was to get an organization
around him in order ABA would
become. Hoped it would be some
sympathizers & good engineers. Small
org devoted to work of developing
plants & process for S.V. with very
little profit for ABE. This was to
be process design work.

After Abe's death A B H & I began
H started to work for Abe - Aug 44
& Oct 45 Abe approved H doing
or twice on getting Abe's name

Abe once asked H "How is John?"
H said "Fine" but didn't know who
John was.

(17)

Abe said he was able to get along
better with John than with Helen

6-21-50

Abe Roth -

Some weeks after meet in Lincoln, H met Art Weber for first time. Abe introduced H as Frank. Artie said "shake the hand that shook the hand of". Believes Abe had told Art that Abe had met Semenov. Artie knew relationship between Harry + Abe.

H later asked Abe if he had told Weber about Semenov. Abe said no. Weber never knew H's real name.

29-19 Paughlet - appeared in Chem + met May 1945. Prob. given to H before he went to work with Abe. Not part of surveying material which was given to Sam.

29-15 Meyer data - Part of material Abe wrote on surveying not submitted because:

- possibility →
- 1 - Later submitted the other material on surveying - late 1942.
 - or 2 - This is material Abe got subsequent to late 1942 & not submitted because Sam already had it.
 - or 3 - They have gotten it while at Abe's.

Some of Abe's handwriting on this material.

29-7 Blue prints with cover
letter from Graver Tank.

All material was for Puget Chem
Co.

Given to H by Abe before he
started to work for Abe, sometime
in 1944 for submission to S.U.
& H never did anything about it
because

1 - John not interested
or 2 - of no use as it stood
without description of process as
was designed for.

Aerial blue prints - refer to
field filling device for aerial
bombs.

Given to H by Abe to submit
to S.U. - H never turned over for
above reasons.

29-5 Letter from Abe to H. Aug 8,
1945. Harried to give Abe name
& address on a letter drop.

Follow sheets attached. Refer to patents.
Some of Abe's handwriting on back.

29-17

Aerial memos -

Most is same - different drafts.
Yellow sheets all Abe's drawing
& printing.

This is material, most or all
of which was typed up by James
All pertains to aerial

dispensers. Contains 3 drawings executed
by Lib. Submitted to H with idea
it would be turned over to S.U.
Written material is essentially in
Abe's words. It will be noted
that on page 1 of 2 introductory
section "Introduction - General Methods of
Aerosol Dispensing". There is
ref to the work of the Dept of Agriculture
Agency then turned over. Probably
received about May 43.
not turned over because it was
Abe's own work.

29-9 - Letterhead Terry & Seibert.
Was made up by Doc & H when they
considered going into business. Wrote
several letters in replies.
Started to do the work in Dec of 1940.
Started writing letters late 42 or early
43.

Richardson - Ments - N.E. Phila
Campbell Soups

Drawing on book. Idea Tom Block
had for simplifying vitamin assay

29-16 - Doesn't know what the letter
is. H. Journal Fed of Arch Eng,
Chem & Tech in 36-37. Never
attended meetings.

29-21 Pullman stub
Probably used on quick trip to NY to
meet Sam.

29-13. Check to Doc - Brown
Check to Keranga - Dues -

29-1 Abr started to clean out all
seditions literature after Shannon
End of 29 & O'Brien came around

46 Elmer Smith. Used to work
U.S. as still Operas. Joined Navy
in post service. When H told Elmer
H could not get in Army, Elmer told
H to see Bartlett, friend of Elmer.
Bartlett would pass H. Bartlett was
in recruiting service. Bartlett not
there.

~~# 65~~

56 Belonged to mother

52 Notes made at one of Chem
Exp. Industries, Grand Central Palace, N.Y.
Notes made while H at Penn Sugar.

32. Refers to bank checks of Proth -
Ad via Ed Kelly.

22. Part of letter to Mr. Reich.
Given to Reich H by " " in
connection with salt recovery.

6-21-50

47. - Letter from Leon Colman, Perene

30431 - Boston relatives, one visits
the Golds

7 - maybe from Phil or Edith Levine

File box with Pruthman's material
much of this material pertains to
Vanillin, - project worked on at Abes

Vanishing Cream work done for
Julian Saul Brodie

Phil Levine's work - attempt to
split dimethyl hexane-diol by
electrolysis.

Rough draft of letter to Abe in
Switzerland

Charges - re Abe's trip.

8 pages in H's handwriting. Concern
what H told Abe on latter's return
from Switz.

Notes referring to meeting of Amer
Chem Society, Nov. 47. Dwyer,
Levin, Payne, Reynolds & N.

Re Black & Heller

Haller may have suggested at time
H out of work, that he go to S U +
work

Al may have sent a letter to Harry
at Kinross St from Knoxville

Lucille Martin

Had Oak Ridge return address

Mailed in Knoxville or Kingsport

Didn't tell John about this letter, because
it was not supposed to be revealed
his whereabouts

6-24-50

Black can verify Koopman story. H told Tom this story on the Monday he told Tom that H had been courier for Fuchs. Incident happened in August of '46. Rode to Beckskill early Spring of 1947.

H & Tom discussed Ames story & decided it was false.

Deposit slips - maybe mother's handwriting. Get sample of Mrs. G's handwriting from Joe.

1 B 12 (4) Folder 17.
Recovery ^{of newspaper} from residue material
& material seen. Work done for Dr. Reich at Penn Sugar.
Reports handed in for conferences at Penn Sugar.

Some material is Dougherty's - some thing.

1 B 12 (1) Folder 10.
Appel for Sun Oil. Doc made apt for H. He sees John^H Bakerfelter in Aug. 1948. Interview was 6 hrs. B & H came thru shortly thereafter.

H handwriting pages - literature passed for Eddie Quirk. Refers to terminals.
Some pages refer to work at ABE.

6-24

✓
12) 1 Folder 9

Notes made during course by
Dr. Carl Schmitt, Prof. of Pharmacology,
at U of P med school.

Continuation course given in fall
1948 by Phila. Sect of Amer. Chem.
Society of Phila.

12 (1) Folder 8.

Letter from Prodie to Abe.
also contains material for P & H

Also - notes on course in Pharmacology.

12 (1) Folder 7

Notes made in early July 1940,
after return from Xavier & just before
return to P & H co. Recovery of
Chem^(sugar) from molasses beer.

(Browning) refers to notes on
Robt. Browning's while at Xavier -
Summer 739.

Folder 6 - Notes on course in
pharmacology.

Folder 5 - Notes on pharmacology

Folder 4 - Letter to Dr. Lawrence
Athen (rough draft) Penn State
work.

Get to extract molasses - Dr. Peir
is writing.

Tom Block

1. - Before prep. exam for Army - H gave Tom Block, name & address of ABE with understanding, Tom would continue when H left in getting info for SV. Occurred on train going to prep. early April 1945. H also told Tom about difficulties re handling ABE. This reflecting was contrary to any order H had, but Tom Block would be the one to replace H with ABE.

2. - Tom can verify that H was interested in thermal diffusion prior to 44.

3. - H couldn't tell about Vitamins Assay Lab as first, because it would reveal Doc & Joe knew about locations.

Folder 4 (cont) Thermal diff is
in a file with material dated
8-11-41 (2 pages). Notes made
during strike of 41. P.S. employees
were working at Franklin Institute
at that time.

Folder 3.
(3 page) Laundry Process. Work done
for Sam
M.H. - Marcus Hook
S.V. - Sundry Vacuum
S.O. - Standard Oil
M.A.C. - Magnesian Petroleum

Follows is work for Fleck.

Maybe never handled over. It was a
library search.

Folder 2
Yellow sheets. These notes were made on
a Sunday while I was at home
9-16-47. Pertain to Brothman work
for Stanton.

White sheets - Eddie Quick process
of alternate method. Search done
for Quick.

Folder 1
Aluminum deposition on paper.
Library search of Chem Abstracts
for Quick.

6-24

Folder 11
Material received from
Goehmann by Block & then given
to H. Refers to nylon. Obtained
in 1942.

This is good material, H. doesn't
know why his wasn't turned over.
Appears to be a plant operating report
as though Job left it there.
(Block may be able to further identify this)

1 B (12) 3

- 1 - Penn Sugar
- 2 - Book - relates to magnesium
powder
- 3 - Tutoring notes

4 - letters from Larry Seibert
re vitamin assays.

5 - 12-1-42 letter to Abr re
nickel recovery.

material from Brath on mixing equip

"A Vitamin Assay Lab" - brochure
prepared for Com Exchange Bank for
loan of \$1400. ^{7/1/42} Did not get the loan.
(page 7) - Dr. Frances Edel

This was prepared prior Jan 1942.

Dr. Edel worked at Nopco, introduced
to Doel & H. by Tom Block.
Knows of no connection with rep

18 (12) 3 (cont)

Eleven pages on measuring equipment
In H's handwriting, but given by Bu.
in about July 1942. Work probably
done on a Sunday morning at
Chemurgy Offices.

one page - Ats handwriting, refers to
magnesium powder. H got it sometime
1943.

one page - ("Notes on computations") in
H's handwriting, refers to magnesium
powder plant.

Notes on numerals white sheets
refer to Buene-S. Circled numbers
refer to corresponding numbers
in Buene-S report, either prelim
copy or one handed to Sam.
Given to H by Ats for transmission
to Soviets. Buene, about Feb 1942.

1 white sheet with typing. Notes
on measuring equipment. Typed at
Chemurgy. This is a fragment.
More complete report later on a
period: Fall summer & early fall
1942.

1 B-12.4 (Folder 3)

A sample of prepared data
sheet for Buene Alcohol Co.
In H's handwriting.

1 B 13 (11) 4/22

Chem notes at Young Penn.

6-26-50

Mackin, Mikhail Y. - Somewhat like last full
Maevski, Ivan V. -
Makarov, Georgi V. - Somewhat like Steve
Makharov, Felon F. - Like P. Smith

✓ On occasion of last trip to
see Smuly, Sam said that if H expected
any physical trouble Sam would send
"a couple of our boys"

Semenov
Semenov said he had once been to
Ben Sogarden's River - was told him he would
do anything to help S.U. (money) because
they were fighting anti-Communism. This
was in 1943 - or poss. late 42
Sam may have taken some visiting
cards there.

Paul Smith -
Was about 35 when H knew him.
P was oldest of all men he worked with
in espionage.

Black may have told H about Paul Petersen.
Paul very familiar ref.

Greenlass
If he was there, Ruth would have
envelope for H.
H had impression she was just as pliable
as Greenlass was. They also have been
plan for H to make H carrying for
further meet with Ruth if back out there.

① Julius is the name of relative in NYC
Ruth had recently talked to Julius
before coming out.

Name Rosenberg means nothing.
Kaplan seems best. H thought Julius
an uncle or in-law of Dave. Maybe
even uncle of Ruth.

② H had idea Dave & Ruth would be
staying with Julius when in NYC.
This is most definite idea of Harry.
They had given H phone number, and
maybe told H that Julius lived
in Bronx or Brooklyn.

H might recall phone exchange
H either destroyed paper with
phone number or gave it to Jaroslaw.

H believes Ruth stayed in room
when Dave gave info, but might have
been out of room when money given. If
so, she returned immediately.

She was present when Dave mentioned
possible recruit at Los Alamos.
Apt was so small she could hardly
have been out of earshot.

H got impression that Dave not
completely satisfied with the money.
Enough for now, but would need
more later. H told Dave there
would be more later on.
H believes he told Dave to wait
be in NYC in September.

Harry Gold Exp R 65-4307

Approx 700 pictures of Russian nationals
exhibited to [unclear] today. Photo negs. to X40
I made comments on numerous
pictures, stating that some of them gave
him the general idea of some of his
past contacts, but no identifications, either

Humphries - re Slack

Humph worked at Belle.
never met Humph

24-25 in 1942-43
in

Worked with Lockman at Belle.
Slack impressed with Humph's mature
attitude on life, as contrasted with Lock-
Hump ambitious + intelligent + wanted
to become full fledged chemist.

Slack thought judicious use of money
in aiding Humph's ideas - might help
get Humph to supply info for "outside
organization"

Believes Lockman knew Humph.

Write report on Humph for John

Block -

Nichols - 7d

Margolin - 7d

Lewis Christmann - is the guy who made
a Comm out of Block. He met Louie
once in Block's apt in Newark.

Short, stocky, ^{with} ~~with~~ ^{with} ~~with~~ - older than H.
5'6" or 7" blue eyes. Chem at Amer. Cyanamid
Apt on Dyck St occupied by Tom + Bernie
Louie lost job at Amer. Cy in 1938 -
mistake pinned on Louie. Louie then
sued them.

(54) Envelope from Dept Board - 40 page

(49) Chem. Equip Review

"Art Summers" - maybe in
Dan Gutleben, Chief Eng P.S.
Art. Design engineer in lab

(60) Has to do with Carl Berger.
interests at P.S.

(29) Taken by Ted Krause. interest
now in Navy.

(38) When H. at Holbrook, Prod told H. to go over near works school near C.P. Hq. H. made enquiries probably picked up book there

(3) Murphy letter.
~~Should be loaned Murphy 50⁰⁰~~
H. had gone on a note of Murphy for 50⁰⁰

(57) Health & Hygiene -
may have been given to H. by
Jr. Brodsky

(51) Food Industries - Mar 40.
Articles of interest. H. submitted
to it

(20) The Twilight of World Capitalism
Growth of Big Brodsky
Lear saw Prod in 50

(21) Notes from the Gallows -
also from Brodsky.
H. may have told Prod that
he was engaged in indust.
esp in 1936.

Also told Prod he was being
questioned by FBI, either 3/18
or 5/19. Met him outside
main gate of P.G.H. - went
to Hodson Hall. H. brought
note book. H. told Prod something
in his feet but come up; - very tired

Brodsky

(35) Kay worked at ropes.

Broderick wanted money - they had a series of meetings, by H had to give him any, wanted 15-20 \$ for general fund drive.

At Broderick's request H introduced Brod to Steve Schwartz in about 1937 at New York or Phila

Brod was a student at Crevel
Feb 34 - Jun 36

Joe might know people who could supply info, recruits.
Joe thought he would be valuable in getting recruits.

Joe had about 2 meetings with Steve, but said nothing came of it.

Joe introduced H to men who lived around 20th or 22nd & Cedar St. 36 or early 37. Joe + H went to this guys app. Worked for Gimble Bros Bureau of Standards. Testing org to set standards for Gimble merchandise. This guy had wife in a marvelous new fibre or fabric far superior. This guys wife was a school teacher - 3'9" slender, dark hair, brown eyes, long nose, no children. This guy wanted to go to SU to work. ^{Paul replied this} H replied this to Paul Smith. Paul said, not

Even in Mexico, Fred was open Communist
trying to convert students.

from 36 on - ~~middle~~ ^{late} of '36. He told Joe
about industrial esp. Joe was extremely
interested, though it was good idea.

Joe was continuously pestering H
to join the CP & finally to get Joe
of his neck. He told him he
knew some things, no further
discussion at that time.

He introduced Joe to Swartz in 37,
early fall.

Joe had quite a few biographies of
Joe - Swartz had asked for biog,
He also asked lots of questions.
^{some 3-4 months after} He mentioned Joe
to Swartz.

Joe lived in Strawberry Meadows
West of Phelan, - later in ~~Wynnefield~~
Wynnefield. He doesn't know
where Joe lives now.

Joe had H's phone number.

He introduced Block to Joe. Told
Joe that Block was doing some
work as H. - they in fall of '36.
Joe took a dim view of
H telling Joe re some
activities.

In ^{mid} 1936, Proletary had key made
for H for Mr. Reich's office, from
Wax impression of the key & parallel
outline of notes. This was how H

used to get into Sachs office. Key was
once left for H. H. got in touch with
Brook for this purpose. This may be why
H. told Joe about his indoor esp.

A week or two before Brook had Key
murdered

Believes Joe had no further contact
with Joe Key.

FACT
Each other esp

Joe in Army in Puerto Rico long
ago.

Joe gave names to H, & H turned
them in to Swartz. I give or see names
& background

Tom Jackson worked for Baldwin.
Lived in Phil, mechanical engineer
or draftsman. FACT. Perfect
auxiliary

Name prob. given before H introduced
Joe to Swartz.

No work by Joe for H other than
Key.

They meet in main bank
of lobby, in parlor room
upstairs.

Brook is married, two children,
wife ill & neurotic. never met
wife.

Steve never mentioned Joe to H after
first meet. H can recall if he
ever asked Steve about Joe.

Joe asked H on many occasions
if he was still connected
with Sov esp. Probably up to 44.
H gave Joe to understand that he
was.

~~Has since told Joe that he had
contact.~~

'Are you still working with the
bureaus,
our friends,
those people?'

In summer of 48 H looking
for work, Joe asked H if he was
safe, Joe prob. referring to Bentley
disclosures.

Saw guy H money to buy trans for
oil from NY to Richmond.
Late fall 42 or early winter 43.

Slack never used the tub, or drove
down ~~was~~ probably alone. Was going
to see Howard Goshorn.

Slack was staying at a hotel. I
picked up Al ^{in the breakfast room} and all three went
near 58th & 4th Ave. All three went to
Glas Hut at Belmont Plaza Hotel.

Had meeting with John - Pro on Thurs,
Dec 26, 1946

When ~~was~~ 1, 1949.
Said that John was sorry he hadn't kept
in touch with H.
Knew nothing about I being arrested.

Smily

7-19

Was business not so - Smily not
right on this one

Stock -

I wrote broker re Medea
Grineff in Spring ^{Summer} 72
wealthy white Russian, lived close
to Stock. Medea brother or brother-in-
law (George) lived across street
from Al. Story to Grineff was that
material was for industrial fusion
contact not followed up.

chance of getting the contract, since
the Sol. names, know about Abe,
since they gave him an award."

(Believes Abe let Sol have idea
this award was for legit work.)

Sol time - Sol's home, while Abe
still in Switzerland, or slightly
prior,

Phil & H went to Sol's home. Sol asked
H if it was true that Abe had gotten
this award. H laughed & said
either I interested that he knew
for a fact that the story was false.

Washin, Kerkun, Vajo, Lewis, Farrell

When H told Phil that it was he
who got the reward Phil said "I
saw, you shouldn't have said that".
H: "Right, I shouldn't have said that, let's
leave it that I never said anything. Let's
wipe out the whole incident."

Phil got scared - this was a couple of days
after big bust at Lakes.

103. - 9-11-44
1st Deposit - Otto Seibert
were sent + did at Seibert's job.

Order of Fed Star - Oct or Nov 1943 -
Bar first Park Central Hotel, 56 + 7th Ave.
Ordered to accept money. Free trolley ride in town.
Semenov told Abe in Leningrad that
his work was with a brigade or two
of men.

Toni Black knew about O.R.S.
Abe Broth " " " "
Phil Levine " " " "

5th or 6th of Dec 49, Chem Show in N.Y.
+ called Oscar Vogt + went to see Oscar.
Oscar asked about Abe's being with
a brigade or 2 of men. + laughed at
O.R.S. for Abe, + said somebody true story would come
out + it would be funny.

{ Broth still with Chemistry
little ice cream store in Grand Central
when + told Abe about O.R.S. Nov 1943.

Sal Fanchell asked + on at least
2 occasions about Abe getting an award
from S.U.
1st - + + Sal (1946) at Peekskill.
Frequently with Depaul, on Sov award by
the vitahum contract. Sal said "After

It would be better to ask
B. in chem. process - but
you to know of B. in

3rd meeting

and his home - studied it -
didn't do anything on it - good
deal of detail on the stubby box -
don't know what dish was used
it - B. now says about it -
prob. that it was.

4th meeting

some 1-3 man - don't know
where he is - went to B.
at 14 and his office -

No more than 7 or 8 in from
5 pm - got some out of
blowfish & finally a seal or

2 or 3 was a shell design for
about a million of seals etc.

Man got a fish chamber.

B. left H. in about July 42

Other time 1940 - 7/42.

W. at the Civil work in 40 & 41
(later for some) - 2 weeks stay -
stayed at Halmhurst Hotel - along
by the power in 1940.

Br. Slattery Health

1st summer of 42

~~Head about it for Ball at~~

On one occasion H called Hask. -
the Br. was - called back
(Nassau St) - 9 - H -
in Graybar Bldg - with Golumi
cut - which he saw him
H in N.Y. in that times - didn't
see him.

Rec'd of what I saw later with
Golumi & del's Golumi - H
was 7 days a week

#

Br. had off before - 10 min
she of 3 hours in Golumi's cell -
I called when night home - at
12:30 - H called her to call - "del's
little he night home"

#

Abel had a court place in Peela -
hill - still fully does.

2nd meeting

1st summer of 42 - meeting for
him - put in his letter

#

One tried to buy Hask; -
many (Golumi) - \$10 for train
pass etc - found it down -
and then Hasked in morning

Tebe - all the N.Y.

① No vacation

② No place other than N.Y. - but rather
to N.Y. center than you did

3rd time

- Walk with Cherry -

6-7 times maybe just
for walks

I Cherry often about 3 times -
met Artie Weber, Henry Sulzinger &
man who worked for March & Co -
further to Dalton at night
for Bro or Cherry. Weber
(Paul Keeler) - Sulzinger & all
don't recall. - usually there
long the evening - near there -
day time.

1943

Vault -

① Car's small - fully stayed house.

② No timber -

To Cherry see Bro. 3 or 4 times.
(maybe only 2). mostly with Cherry -
thru and through

1944

Was at St. Joseph 9/43 with Bro. of
(6-7 days) of '44 ^{member} ^{to} ^{bill} of

44 - 3rd time at St. Joseph. 9/44

2/44 - 5/44 - District Junction

9/44 by public men. 9/44 to

W. 1/44 - Sub. blue during

Bro - at small night in bar

Herby family

13th 5/7/44 - in a 3.5 am 135.

in vicinity of Longdon 1389g. - this
was also when he went - pretty
near below Bin left Chem. -
not Gilbe (end) - and another
from going - showed the something
in a book - had money to do
with Regal Chem (Herby). Could
understand some of it.
Regal had a tab. - on 32 date
super where white road -
might have been diff. flow.
So it was in many cases but
equipped really limited.

#

also told a lot of interesting
stories - trying to chlorinate
ethyl acetate - but still for
making DDT (Chloral Hydrate).

#

~~part of the same~~

might have been a lot better
little lab. - might have been
to X-ray + used in lab. This
10/44 meter. Lab. used around
2/10-2/144 - now where there is N. Yalt
that tissue. This he said he
was very busy with Chem -
not where he was - etc.

#

part of part of APH - had on
at 8/15/44.

2/3/44

Early on Sat afternoon -
expect to get home - in P.M. a box
home - 2 roll off below the
table to night in her kitchen.

5-7/44 -

Can't recall when met Cole -
probably to report on some work
for B.L. - might have been in
under Culin's steaks - can't
recall meeting anyone else - and
Engler Bldg. - night after a
Sat afternoon - can't recall
how long stayed - (if in evening
had trouble locating house)

10/44 meeting

met Br. at corner of 2nd & Park
or 4th. (SE corner) - met in
private -

Dr. sd. he got it for Cole -
wrote - divided a set of proceeds
of the annual process - Heilig made
him and bond. Br. sd. he
couldn't find Br. - all other was
kind of Br. - got a week later
(Cole's Culin's best rd) - got it
from Heilig - actually Heilig
Br. sd. Heilig for Br's annual
annual. He told Br. that Br.
had no share, the rule had
said a statute - with it
sd. that Br. had sd. rule had
not content anything to any

or it was that Nat Br. was
religiously it.

Had dinner reading
walked down 4th Ave - had
Washburn, back to 3rd - had
dinner again - did not read then
started down again - (with a
cubicle trip) - ended up on
3rd so walked to Penn
St. ~~St.~~

#

Right after he met with
Chung - in old old
a distally - but grain distally -
Might be grain in suit -

Had fine notes to old. a billie
(Coulson) in L.A. - B
Went to Emily's apartment
(that).

~~That~~ there must have been a
third one. - Hamilton
on 3rd

2 or 3 times to N.Y. on bus
for Penn. Ave - way to Penn
at Penn Hotel + Penn
Hotel New Weston.

About 44 or 45. Ca.

① 1st time - was with bellman
at Plat - top of A.K.
Hamilton - near end of city -
near pub bar - they were under

day - they don't have stuff and all
about the birth of Alvin
about two or three in N.J. - Conroy
was finally expecting them - even
went out when Alvin, Stetson
(John's brother) and in woods -
went out in place that Stetson
thought the war was on. - Long day
stuffed with fish. Keel in
3/42 - 3/43.

Nemesio Alvare (don't know
when he is) - night he will
go out part in place.

Good Stetson was about
in 1944 (at least about 1928).

Tyson (Robert) denied flight
for Alvare in last (some of
other of flight (around 7/46). ♦

-1944-

- Vacanti -
① Central call.
②

1945

Probably new Xmas of that year -
or early in 1945 - last will Alvin
probison.

1945

Feb or March - A.B. probably
called him for G's help. A.B. lab
never worked well.

(Dr Gold, Cornell Med Centre N.Y. wrote
article on heart disease.)

No other business - did not see any

one else.

Cousins in NY

Abel Albert Union - Clothing business
R. Richard Union - Jewelry business

May - June next time saw Abel. Did some work in A's lab for one day. May have returned to Phila. some day. Doing some work on refrigerator index.

May have been another trip to NY on company business - does not know just when.

5/6/45 - a day in lab at Phila. Carl's lab spent day there. Bill Raloff, Walter there. - bought information there. ~~first~~ ~~at~~ ~~the~~ ~~City~~

For part of year (45) went twice to N.Y. - not to date in field - later discussion on early fall - After Bob's explanation was indicated to let between Bob and little to say about atomic bomb. Bob was but because thought he was a great mouth, & had been considered to participate in the atomic energy program. Richard the matter, who worked on it. was talking of Bernard Kaufman, a man at Col. Bob might have been Harold Urey. Richard the effecting of the atomic bomb. Spoke of Bob's blast & got into his head the explosion.

Met Kaufman out at lab. - In
1/47 - 1st time - watched the experiment
on front of acetyl glycol - 1st
step in process (see article). About
was such a success that there
was great rejoicing.

2 45 (cont.) meeting -
Gale bought \$200 for him -
saw him
see ① at lab - took walk -
② 7th and 1st - and 32nd
1st - and 1st - and 1st - and 1st -
Africa

1946

Called - ^{Feb.} 1946 -

13th 2 labor hired. -
① also a new one made before
5/46
② another before then.

4/46

2nd time - agreed to go to work
for him. One when shortly
meeting in 4/86 in Atlantic City.
Interviewed at May Yard - subject
collected name at that time -
high his name was Evans (personal
name). But all his -
Evans ~~was the same~~
his twice - ~~at~~ Evans told
his job was his - should with

who was leaving the job. - with
the job - thought he had -
didn't want to leave - got
family - went to see him
again - told H that the
best job was not and
then until 7 or 8/46 - will
be later. If they
wouldn't consider you else.
If you have an offer of another
job - you'll have to make your
decision.

Took walk with
brother. - got back in 1/46. -
close family - with out help
who was at school - N.Y. -
could come here and end.

5/46 - went with him - got
stay - ended.

#

6/2/48 - with for six weeks -
went with Phil and Hoch - about
9/20/48 -

Ben - Berne, July 12/12/10.
Gold - (son of Gold)) child under -
Celia ") 8 or 10 years

Both parents born in Russia -
with detailed Rus. family
in Russian

Chap (son of Henry one)
Zolt Golodnitsky (family) -

Ellie Gold - 1914 - man
should send different way -
trouble getting in court suggest
to Pop that he and better Chap
him now - suggested Gold
legal chap in court.

Stayed long with Rock, Ark -
relation -

Chin about late summer of 1914 -
arriving there 9 or 10 am
here - both worked in
store + coal yard

Pop went to Norfolk + worked
in hospital - - Gold + K went
to Phil - he came to Phil -
Muller's son had slave

Pop = Phil 1911 -

Education
① Shawswood school, 1915 - 1925
② So. Phil H.S. - 3 1/2 yrs
1925 - 1928 + some
also probably
got diploma in
1929

(3) Myrt school at the Court
Every 11-5 - during 1229 (later
28 + nearly 29 (at school) - got
a diploma

(4) Univ of Penn - 10/1930 - 3/0-4/32
Chemistry

(5) Ph.D. in Eng. - Univ of Penn -
Ph.D. in '36 (1934? (humble 9-)) to
June '36. Ph.D. - Chem. Eng.

Pub. worked for RCA Victor (Camden)
for 30 years.

Joseph Gold - born 2/10/17, Phila.)

(6) Xavier 9/38 - 6/40 - Degree B.S. in
Chemistry.

(7) St. Joseph Coll Eng., -

Residence

① Dr. never told A that he was out'd. in
Bona 5 Process. Fred's been eyes
& Char. field on an analysis Bona 5
process. B. didn't have eyes.

② Con. with Dr. Re; Salos. Very little

10/44 meeting -

Right a scandal maker was -
re. trouble with Calverine - st. he got
it not here. A. could be for show
of beam (Healey). - wif - st. line
to show st. he had meeting - I
but told his meeting had been held &
B. was out.

Wife had spoken in meeting - went to Am
for help - from had taken B's article
& pull it under his name - B. hit
ceiling - could be wanted to display
wishes to make

About a week later went to Healey -
H. went right to beam - Dr. wif. -
H. wif. didn't make any diff. - wif.
had already done it.

Re put in - seemed to A. that
some of the would for Healey -
K would for Calverine. Waller
pretty sure would for Healey. Bona 7 (C)
Vago - this would for Healey.

5/22/50

John - summer of '44 - like thing

fall

Red Hair

1" Eyes

Slight (brill) Cull

Trained like Guyton - like - K. D. O. -

Man with a

Accent - somewhat -

summer of '44 -
was supposed to meet Klaus on

Billy - Della Curran - Carter Phony -

never showed up - 8/44 - travel -
Don't travel with him. John goes

to the lead to find it travel again -
went to Boston about 9/44 - finally

10/44 - saw her there at that time. End
time - found her - with home. 2

late 44 - early '45 - told her later on

bill of Klaus - had Joseph Raymond

a son. Raymond - was in the know

time - found him to know up - left

message on Klaus - add in N.Y. -

can't recall the address - number

in Manhattan - Kaplan, etc - might

not be - however - in fall

was - put it out himself. He

was - I - said, I didn't meet

with a - Klaus in Boston - at

time in Santa Fe - said ending at

Los Alamos. Can his name info -

one type of bundle - arranged to meet

in 6/45 in Santa Fe. - met him a

reaction - into a Santa Fe. But

then - later that to Albu. by train,

I had to Santa Fe - met him briefly -

got some info for him + went back to

Paul Lee

Small man - brown - met him after school
at 41 - summer - man bundled with -

+

In 11/2/44 - Paul told him he was going
to be doing something for some time
that anything he had done for before -
that something before doing - seen
told to see Fisher - met him lunch
on east side - man played - some
sent center - coming with of + some
balls - had glass in his hand - exp.
gold - to his home just what he
was working on - didn't know he was
a spy but when he met him -
walked - dinner Manny Wolf's - then
by cab - one and talk to him.

Agreed to meet again - told him
he was working in War Expenditure project
something I didn't know existed - told he
would be working in the - A. would
be he worked - no more contact -
etc - walk.

Met him for 4/44 until was
death - about 5 or 6 times on two
occasions passed info to him - ball
of paper - 1/4 in my name - something
discreetness - only time he saw
+ look - look - pretty good sized ball -
paper - passed the one last to him +
then to another man - here on John.

N.Y. & go on into the job. A man
understand the extent of the
S.F. about middle of last
month and he did not know
how to plan that time. But this
was ~~not~~ plan but to ~~plan~~ my
time - please - wait for a short time.

Ret. to N.Y. - plan to K.C. - to train
to Chicago & train to N.Y. - out trying
to give a job - found difficult -
again to get home. - But this
time the day after next took
phil, went to N.Y. - he would
be on every day. - but this was
than 7 weeks.

John - went on vacation on
the H. in July, the week 10/2/46.
He was supposed to be coming back
again & go to England. A man
came. And that he will be
in bed to enter to England -
went of there again.

Ret. from that trip - was supposed
to visit John - with heart in case
that, by, father that, and
should be - but see advice.
This was to plan for the summer.

5/22

1936 - Golata Esch - over - part of year - 1944

fall of 1936 - under way - as: Paul Jones

Ed. that he had had in '32 - D.C. - right
he had with a to help S.V. - then
thing - summer - Paul Smith (Coker) -
called him Paul.

D. Penn. logs - Penn. - over. Clear
washes - filled with with P. of sand
processes - could be in a cold water then -
in very common - value? - under it
the unit part of a build up - before long - '35 -
on out of water at Penn. logs -
proved to that of fossils which might be
possibilities - could be that of my or -
lead to get to X-ray - ground with
P.

Paul's success - however in Fred -
my doubt out of him - needed
show change - taller than he - probably
had - in between grain - Radium acid -
he was successful also in X-ray by
small thin - methods

5-25-50

Walter G. Kachala, Phila - died
Chemist -

Penn. Supr - duty release of Suction Reel -
got name of Phil on floor in Penn.

Revin -

Revin - didn't stay.

#

Power Water - Rochester 1941 - later '43
Phil used own name - not

Met Sam, etc in white NY - Phil came
back to NY. C. T. still on.

Sam Sam in Phila and on

#

Put - to Phil - Sam not moved to
Rochester to make sure why Sam.

#

John - married - Phil wife was here -
had settled look.

#

#3 -

Face - faintly ragged

Hair - Dk.

Eyes - "

Color - Slightly

Build - Sl.

Nose - Good sized.

Ht' - 5' 8" - 6"

Bld - Slender

Weight - 140 lbs.

- No hint as to background.

Now in Mountain

Acct - Russian

Probably not here very long.

30-33'

One in Phil

Montgomery

~~Notes~~ Meetings - mostly fully furnished -
Arrived each time, joints
alt. meeting from for -
would H. tall entry.

① On meeting - along 5th Ave where
Cats pub - in 90's. Out with
Wall meet Gold + the always had
somewhere else to go - usually with
meeting some day. This part, meeting
in 1st - 2nd St every a little
up from 5th Ave.

② On meeting, will John + friends
Dinner -

③ Some jobs, probably 5 - and many of
"our people" like in "Philly".

States bill to talk to #3 & he
had billiard - got going to under-
standing from train it was time -
went alone - put film - seats
he was back - gave him
eyes not he didn't see it

In N.Y. #3 a loan out for
with - #3 got into part #3
1/2 card'd. not to help it. H
wants to look it down he wanted
to go to Xavier. Around at H -
firstly to mention the train incident
3 rd. he had all right to talk about
start H up fast. Took place - rain -
was trench & yla coat. - H looking
for it - saw many thin type coat.
#3 was around about H going to
Cincinnati or H might be around here.

#3 didn't say and they don't
enter in the future, but he always
thought he would be, because he
was around #3 was getting fed
up with H.

#3 offered H. money - found
\$50 on one occasion - H was
not about at the moment - family
moment that didn't have train
fare - did. Next meeting #3
very sympathetic & said H. should
reconsider - said they had it on
news that he had refused. Told
him the expenses are very numerous &
didn't even had accident any &
never would be.

From all contacts - they
all gave H. the information that they
all knew H.

5-28-50

Yakilen -

Some info. that felt might be bad - can't recall what given this impression. Very characteristic of John to lean back and toward Harry - (save on L. A. D. picture - carriage of head very good too).

Method of speaking, like a strong feel - as in photo on cover -

Walked in bar - one drink - as walked out in the staying behind + having 2nd + 3rd drink - still recall he was as stayed behind - analyzed this double of 7 min - John drank whiskey - usually superior brand - near bourbon - never is sent on more of. both - only feel of one. John drank also whiskey + chased it with 9 ounce of water.

John told his men to meet in midtown Man - Blwy - did not like Dr - liked Blynton + Queen.

First meeting - men's lounge early that Dr - at a certain hour. Meeting usually late - some 20 min or 5 min after. Men go directly to place where meet take place - make sure not being followed. (G. S.).

John - he of formal meeting place was Capitalist next to Bedford, a side of Tex. on road 50th St. - Rochester corner. John - met him at 8 + X cigar store - bl. down - on the way - the Sal. they had better idea than of her.

Phil G. was the first sign of recognition -

- W. S. -

1949 - Vacated - but 2 weeks in August -
Dr. Bellot took vacante, saw him, and
Arin Bell - missed but almost closed down
Spent both weeks at home - told a cable
of pull at West station that he spent a
couple of days in Fed. - Came to girl - got
me for answer - then could Arin on
auto - no auto license - parent went
to bring girl in it when my child.

P. 4

Only from he can recall going, telling me; what
Dr. Bellot and him - Dr. Steyer -
never told anyone about his money in
Dr.

Did see - Man, NY - who with
Bon.

P. 6

But got May 49 - took up with her
again late Fall - in beginning of Feb -
about time Fred overed, she found
him down again - was worried about that -
Fuchs went - worried cable & days - but by bit
had - put at friend.

told several people he was going to train -
said never to eat vacante class because
he was out of money.

1.5

Becker - net of Am. Chem. Society,
Munich, Phila - cost 4/50. -

Was as soft & amide 17. - semi-
tender, & powder -

6-1-50

Ret for South Sea - to Coll - early evening -
weren't home (last night) Just 45 visit
slight in morning house. An old man at
was fine (found plane) sat out there -
not too curious - very old - a native.
Private home - could feel it and was
Ret. off morning, pretty early - 8-9 AM
Sun. - night has been 10. Kneaded
again - didn't recall seeing, all seen -
did see N.C. Saw material - in plain
white envelope - not very bulky - was
not very impressive looking material -
got impression from what he said -
gent descr. material of seal when
this got guy walked at the glass.

Mentioned Cook, who had been
trouble for being too injunctive. #

May have used the name Frank Kessler
with this guy.

Plan you stated \$5/ea - completely
bought the lot this.

Money he took (as he needed it badly) -
do not recall a result - don't
rule out possibility - was in H's
mind but decided against it. He
seemed to expect it.

John - just before G. left for Santa
 Fe - 3rd or 4th - the time
 + in before, John gave H. a
 slip of paper - name + address.
 Told G. to see this guy + he would
 "probably" have info for Gold +
 also he needed money - was
 to give him \$500. - I gave G.
 \$500 - believe it was sealed -
 fully bulky package - No fly.
 check. - G. was supposed to
 mention a man's name - not
 like "Benny from N.Y. state
 man" - "I give you" -
 specified that Gold see man
 after Fuchs - if any difficulty
 Fuchs was the man to see. John
 sd. that H. had to see man on a week end,
 many ways if he needed to see it. - might
 sd. he was with wife.

During business phase - sent wife
 to hitler - Gold it was obvious
 to the wife. C's double
 #

Gold did not mind. receive the info
 from them - Gold would that he
 may have gone back there for info -
 want to get info.

Info could have been Tyburnth on
 handwritten.

Subject to see a G.I. + disturbed + combined
 at his youthfulness - and his effort
 by ignorance as to where this info

Non-con - Curly hair - light - more likely a

Eye - light color

Curly hair - dark?

Chunky, but fairly well built

Pugg nose -

Acted young.

New Yorker - square jaw.

Good looking fellow

Hair comb - 24 - 170 lbs.

Good mouth.

5'7"

Wearing afternoon

Young - 25 (1945) if flat - 5'10" - Dark hair - dark hair

Wife - smaller - New Yorker - 5'10" - Abb. - trying to get
word on to be near him.

German - from afternoon - talked about
differing - getting behavior type good

Maine - in some he went - fellow

1 - who might give Soviet info -

held had been given info. we

lay off picking up ~~what~~ ~~the~~

deserted - it. No name -

think lived in Bronx.

Use due back and some time to visit them
& people. Gave odd his mother-in-law, or

father-in-law address in N.Y. (think

Bronx - Doherty - not Queen or Manhattan.

Should have followed to contact him then.

Told John about it - J. put him off -

May have been a mechanic, mech. engineer,
from something that he said. - maybe

had some training in physics. She had
been there very long.

Had not been married

too long - she wasn't obviously pregnant.

- 7 -
was going.

Much of conv. dealt with their trouble -
moving for her to come out.

Home.
sidewalk - at. o. lane - at. porch
maceration -

off double house - one closet to
main street.

Just up ahead on left side of main st -
a block or so was a blue neon sign.

May have had training in Physics -
specially studies there.

High thin woman in hat Furber - probably
not in service too long.

Can't recall whether house had bell

Stair was exceedingly narrow - steep.

Seemed to be right off porch - turn
in the stair - abt. ahead right on stairs.

Recall separately from the other st - was
a Sunday - religion should type festival -
Roman Catholic type. - native costume -
which town seemed to have turned out. -
Was not Indian - Early June.

House - Possibly clap boards above
above the foundation - couple
of rows, then the porch -
couple of steps.

Have a wall - house
right on the corner.

Get Road

Stone wall - later R.R. H.

Al Slack

Sam - didn't tell much about Slack -
 Sam, go name - Sam lived -
 with Webster, or West Webster
 N.Y. - outside Rochester - either
 late 1940 or spring of 1941 or
 must likely - fall of 1941 -
 occurred on trip Sat night - NY -
 G was unceremoniously pushed off
 to Rochester - by bus - no
 money - met Sam at party
 from Sam at a safe Cr. in
 13rd - Cth Ave below Lincoln,
 maybe below 5th Ave. -
 5th Ave bus - trip. about 11:00
 bus - road on 42nd to
 bus. Terminal + getting a bus.

In Rochester - Sam - called
 Slack (don't recall whether
 he had tel # - recall looking
 up).

H

H or Slack got into firm.
 Slack had a friend Dick
 who was a dyer - did some
 thing - a radiator. He was
 like between Slack and Sam or
 Sam's predecessor - Dick died
 when H got out of there. Dick
 H. may have been the woman dl. goe
 info. May family had had direct
 contact with a Russian labor, for
 something he said it was for a

very brief with
~~level of work~~

May have been

last talk

Called him in phone - sd. "friend
of Dick, on this Russian counter -
in town like to see photo - from
what H. was talking about. - saw
him in front of movie theater in
morning - saw on there - about 8-10
or so.

sd. undoubtedly that fl. to give
H info - sd. my talk about
page at that time - not clear -

Said fl. not a Communist -
was a socialist - good friend
of Lyman - not Jim - unless in
Albert or Alfred.

Used name of Martin - name he
knew in name.

Black was a chemist & worked for
Eastman Kodak - saw right hand
fold H that - worked in
the photographic chemical plant -
in Rochester - began started all
time.

sd. type of info - the developer, etc -
other ^{emulsion} used in the prep. of the
film used for Kodachrome. ^{the}
developed used for ^{it} ^{the} Not sure -

date on the subject of the - but
from which they got that - good
deal could get what was wanted.

After 1st meet - H. set on
approx. date - nearly all would
like to see on Sunday. - some -
the def. apt. to be there at
def. time - H. didn't seem to
want to meet in each of towns -
other time - 3 or 4 weeks - could
call him

2nd time.

Went to H's home - a farm (small)
in which a great deal - H. from
him and there - in the country -
not wife, father (old friend -
and in work for Solway Power
Co, by name of - who was not
that the work). Wife very
has been married by him, small,
fully - and to work for Mayla,
Jenick. He had had when he was
divorced. He has a son to be a
child - probably small, might
with her.

Probably made total of 6 or 7 trips
there - got info about 2 or 3 times
and included name of Chemman -
on the side. ~~Sum of~~ Sum of
money was approx. \$200.00 - given to H. by
Sam - who was given it to H.

was

when no info rec'd.

This went on until Fall of the year
of 1942.

*

On one occasion there were two
arrangements.

① On one day Al came to N.Y. -
met H. and found out that
H. didn't know him to know -
H. met all all sort of things.

② On another occasion Al came
to Philadelphia - met at No. Phila
delphia - he went to eat in
Frankford. - William Best -
at end of Frankford St.

#

Stayed one at Park Hotel - 41 or
42 - may have used own name.

In fall of 42 Al went to Tenn. -
wife still at Rochester - H. didn't
know him - to go -
filled in info - Al. went there -
He had gone Tennessee Eastman at
Knoxport - cellulose acetate plant -
then to Holston Ordnance - probably a
division of Eastern Kodak.

That winter - wife of Al's was - a
little home down there - and
then later they sold their farm
near Rochester.

B. lost contact with Sh. so had
to wait him up.

Went to Bristol, Tenn - Va. - probably
is only 43 - ~~contacted~~ H. here
he was in Kingsport - wife told it.

Sh. made an attempt to break with
Jed. - B. scolded him out -
Sh. must have realized how deep
in he was getting.

2 or 3 trips to Kingsport - all during
43 - ^{by train} ~~by train~~ at least 1 hotel in
Kingsport (Kingsport Inn) - don't
recall name. a couple of days -
trouble getting in touch with
Sh. called him at home - on
shift couldn't reach so left
message to him Sh. call - got
Foyella at Sh.'s home. Very nice
place - must be for a stadium.
2nd pit.

Only one type info - on one occasion -
info on the nitration procedure

① One prep. of very pure nitric
acid used in the nitration procedure
in conn. with what H. believed to be
RDX.

② Sample of RDX in a rubber
container ^(weight) told H. to be careful with
it, but sd. it was packaged to
travel - rust -

RDX - Sh. gave it - name other than
RDX - H. ~~never~~ used other RDX.

3rd trip.

Only thing was info that he might
have to be transferred - but they
never would (Oak Ridge) - all
said smoothly about about
poison gas.

4th trip - (Knox 43)

H got thru + she had been transferred
just missed him + H. made inquiry
plumber - ad. gone to Chattanooga -
H. later called it was Oak Ridge.

~~transferred~~

Right afterwards, the son + H. had
made inquiry of father to Oak Ridge
was. Right after that - son
dof all contacts.

May have given ad a mailing
address - what name + when
+ told him it was a trap - Don't
st. Don't tell true name.

No proposed meeting at Tenn. Co.
May have given him money but
cant. recall - may have suggested
it to son + get pretty it off.

Obt RDX - to Phila - left at home.
call of day - maybe a week.

include the rest of it -
the actual polymerization to
the high molecular weight polyac-
rylate. Res. only got stuff on
raw materials

Slack height [#] that the material,
etc.

Thomas J. Black

Met in 1933 in Jersey City - Bl. with
at Holbrook Co. & when Bl. left
Holbrook, told me Bl.'s job.

Fred Heller - used to be at Penn. by
set it up to see Bl. - Bl. see
but he got job.

Bl. had medical training - in J.C.
nearly like this case of - grateful
to Bl. - to extent - grateful
to Bl. in how H got in work. Or me
+ in had desire to help the point this
to get some sort of medical class.

In late '35 (my) - Bl. with H. to
Paul Smiths - only doctor in
the city. In N.Y. - don't
recall how Bl. got him to go of the

about moved. Smith told H
not to see Bl. by you of it under
Pls instr. On one occasion they didn't
obey because were very good friends -
that of '37 - Bl. was injured in an
auto explosion - severely burned -
Living N.Y. - want to see him in
hosp. - was coming for Fred to
him. When H told Fred that
Bl. had been hurt & would Fred
to be what is the friend to help
good. Not to tell he was
getting in touch with Black - all
what has been against the order

Black never spoke about the father
with whom he was working as a
Kearneyville - tall, with father who
had the hair on the forehead.

1946 or 47 - 41 or so - possibly
getting in trouble.

Bl. lost contact for some time
Harry. H. Davis from what Bl.
did give the Russian as was during
year 1940.

Bl. also, for a season. Bl. gave,
he knew Sam.

Bl. might have been drafted in
large extent after 1937 at which
time he mentioned the name of
Mittler Chambers. Bl. is in the

" " " in court, with
out much for Soviet & W.C. had
turned in info over to Army officials.
After talked about whether Chamber
could recall Black.

6-2-50

~~Alb~~
Albuquerque

Man given with an old. a tel. for N.Y.
tentative meeting. -

think John said something about if he met
here to ~~be~~ with wife would have info to get

Shapiro, Mach. work, a shed. or it's possible -
think he might have worked in a physics
lab. at Los Alamos - from something he
said.

Not out there 1/2 year or more.

College Man - with CCNY or NYU.

Partly sure that name was such that
could not be mistaken for gentle name -
but name of Montano or Norton seems
to ring a bell - maybe Max - maybe
Joseph

Man (old) who answered door (lat) was
well in his 60's - ~~grey hair~~ white hair -
maybe 5'10" - native. - did not offer to
be a room.

Door - saw the door on outside - door - top panel
was glass, possibly with wooden molding down
middle - bottom was glass.

think actual porch or side screen. Center an,
at corner of house - might possibly have been in front

H. might have used the name Frank
Makin, Martin Kessler or Frank Kessler -
Mrs. was asked if he related to a Kessler
of NY, who was a friend of Uncle.

He got away from Camp regularly on
week ends.

Inmate of in-lane of work was named
Philip (possibly 1st name) - possibly in
Bx.

Fuchs

and his - had been speaking to
Security Office & in way of last
fuchs - saw all Fuchs that
while Harry Gold. only in past plan
were 100's of Soviet agents in U.S. &
England - there in only 1 in the Soviet
Union itself - didn't say name. on
Brit. - laughed & said that didn't
know anyone that didn't know
any thing. Reported it to John.

#

I was ^{and had} worried about a cube of blocks
of lignite in back of car - for party
of source of information.

#

John Home on day of Yon & John - left
Chin that suggest to allaying - day 4th
arrived - saw to leave.

Blair

Offering or loan of \$5. Bl. asked if H. could
get into the Penn. House - Ed. Ruscini
could be introduced - Ed. became in touch
with one man - man at Antwerp.

Blair. when to get blueprints & how to contact.
with of money work - Bl. was getting
money - definitely. - besides - in fact
a number. This Bl. was a member
C.P. & then C.P. that the Russian got in
touch with him - Bl. & H. met a
C.P. meeting in Jersey City - Bl. trying
to get H. to join it. - which at Holland
1933 (Jan 1933 - Sept 1933) - About
time of bank Holiday & after Eddie Holroyd killed

Re - Indus. Exp. - Bl. argued along help
Louis Harrison. - H. thinks that the matter
has been covered before Smith (a Bl.).
but H. doubts it - this Smith
organized the industrial exp. - Bl. met with
in touch with Smith - late 34 or early 35.
Bl. was working for Nat'l. Oil Products Co.
(NOPCO) in Harrison N.J. - fuel oil con-
centrate - ^{with} palm oil (filler for palm). -
Bl. going into the Russian. Smith might have
been coming with Antwerp. Bl. doubled out of
C.P. - got a message from Bl. that
Smith told him to drop out of C.P.

#

2 late '35 - H. met P.S. - Louis would
have Bl. referred to H. about going to
N.Y. met with Penn Sta - walked
down 7th Ave. and Bl. intended to Paul

B.D. left the 2 of P.S. and the Soviet Union in which a living wage or solvent - part, a person on which for Reich was working, which pointed to the refusal of absolute ally alcohol. (B.D. must have told P.S. that H. had been in prison). P.S. asked him to submit a written summary of what it was. P.S. set time for his meeting - in Manhattan - all to be and meeting to give this summary - some weeks later in N.Y. - P.S. got so sick in course of meeting - no sleeping for several days, etc. - required advice with P.S. - even more "illated" by the idea of being able to do something to help these people (Russians) at any rate, P.S. wanted to give him money for travel fare - refused by H. but used an excuse - later it would occur to it. ~~and meeting was held 1938~~

but a further job talk from Paul - he would give a party for H - H tried to pay for the meal - ref - H tried to pay for his own meal - ref - H on night work - going to school nights too. 12 - 8 AM - then sleep during the day - until 6/36 when H good - meeting took place at day time.

on a meeting in Phila - not invitation of P.S. to have the travel fare, - was distributed in London Phila - H afraid of sleeping with Reich, - met him and 15 or 16th st - single good health.

at 1st in 2nd meeting told H to
send B.S. H. Hildebrand preferred
P.S. it was but that B.S. should
not

Don't think P.S. dropped B.S. because in
summer - Fall of 36, or a short
time, P.S. bought the 3 of them
together - NY - etc. dinner. -
about this time, P. asked if he could
pay, the to buy something for H
to give to Mrs. Fuller or mother. P.S.
sd. "We like to give small presents of such
a nature - it helps to estab. a cordial
relationship"

#

3rd meeting - NY - H gave P.S. a list
of various processes (exclt sugar refining)
used by the Germans - Amer. Chem Works,
Karlstadt, N.J. (suburb) - rel. to using of
solvents, such as diethyl oxalate,
amyl acetate, butyl acetate, ethyl
chloride (found acetate) + in addition
the possibility of obtaining process of
pure ethyl alcohol. Reason for
but was to cut down consumption of water
used in process - (had ethyl alcohol to
be blended with water used).

#

2nd meeting - P.S. made up + all
H had to do was to make P.S. in 2nd
P.S. at 2nd meeting could have still
planned in middle of a few hours.

Call Joe - find out if he has seen
in touch with Hamilton.

6-3-50

Pictures

Vantorian — composite of 2 plates would
be Fred — closest things to Fred
that has been shown H. —

Hall — don't rule out but don't think it's
the GI — Referred out on height
and weight. —

Box — flight resembled by Mandibora —
but not him.

6-3-50

Paul & Block

4th meeting - ¹⁹³ info re. school. acc. process - wasn't
any good but Paul kept thanking him for it
in meetings to come. Prob. in 6th hr. met
to be for Birkle - day time - quilt - built &
man of materials - many blue prints - had to
hire them back - got the back w/ 3 or 4 hours -
had 2nd meeting, saw day number and school
guide

Met Paul once a week or every 6 weeks -
" " about 8 or 9 times - from latter '55
to about early '57 - then falling. Some
stuff to Paul about 25 times (maybe only 4).
3 or 4 times visited or paying debt - refused

Saw Bl. 2 times while H. with Paul. One
in Paul's presence, 1 one w/o Paul.

Bl. with Mober from 1953 to 1943 - 1944. - during
this time she would be present for a whole
year w/o seeing him. Bl. by her own hand
everything that H. was doing. On occasion
Bl. would ask to see the meeting - H.
would give flying lesson. Bl. gave H. very

little about what Bl was doing. One
day they agreed on - some - later both
would get caught someone would make
a slip.

From 1937 - 44 - Bl didn't give any info
re: what Bl. doing - was constantly
being + work with them - for fear
was that was that the R's would lead
Bl. up.

In 1938 - Bl. showed H. Chalk name in this
Mag (and other 14 kids) + ed. Ch. from
Bl. by his name + work but would not
Bl. with the R's.

Bl + G. talked quite a bit about starting a
small chem. supply or or laboratory - did
this for a while 1938 (only) or at least for
a while.

From 1937 to 1946 (left Br.). - Used Bl. as
an alibi for family for leaving Phila (G
see in G. G. - Bl. from was found in case family
called. But since H. call Bl. + told
him that it was called just he say H.
stepped out. Bl. from only H. was

using him as an alibi.

13. may have let drop to H. something in early '40s that the R's were interested in Jewell and D.L. were trying to get Jewell. H. does not have letter notes on it at Napco.

14. very big chemist - one of VP's at Napco (Barton) and former to D.L. - so very full on job of D.L. because of his ability. Had bunch of working on problem w/o making mistake. When Baker left (a list) they really covered the book on him and covered him. H. learnt from the real reason why he was covered - that 43 and 44. Someone else had made it after that D.L. had received of some kind.

He did couldn't work on him own to Newark. went with Charles W. Berg Co, Pa. Any amount will " was paid for" came down for Newark several times a week - ~~didn't~~ then came down frequently, but still was not on any salary, but only gets

portion of profile of work he does. Still
still even more have influence at time, but
don't put full time in at Berg.

H. introduced Bl. to Berg in late '45. H.
once advised in the future, as Berg adv. in
future. - H. went down - long talked -
H. got idea a good deal on wind, but
thought it was good set of, or mentioned
Bl. to him. - Got along pretty well at
first, and after that not too well - Berg
is old man - had heart.

Bl. commuted - much to show for
a long time - stay in - work -
finally moved down - end Berg -
maybe about '47.

After Bl. had a bit of space to when
Bl. lived about 14. visited once a time.

Bl. started on the side a outfit called
Spence Chemical Co - small chem
outfit which recently folded - place
was old garage - made a boiler
cleaning compound - Jack Pass -
Bl. was partners. - You had

working whatever to I with Russia.

Evident

Segessman - really, whether to do
with Russians. - chemist - working
for Nopes in Hungary met Man
with Molnar Sabotage, NY. +
Gene Organic, NY. Nicholas Molnar.

Met Juan then Bl^o - Broadway day - Chemist
would be Nopes, quit - don't know where
in room.

I late 47 in early 48 Bl^o + H asked
Bl^o now that had word for his apt, but
would R's see got word with Bl (Bl.
had previous R's word, at in touch with
him than Mend apt). On 2 diff.
occasions, in 2 diff. names (Bl^o's
man, ③ the name has been added.

Since then without any desire to get back
in - even contacted H - in late 48 Bl^o
told H - to forget he ever did work for
that - contact working at P.A.H. and don't
try to find out it.

think Bl. was handled in far more
rough fashion than H. - like P's falling
in to the money to help for a
time in mid-air - used our funds -
may had exposed self quite often. The
Bl got away & disappeared long before H.

Bl. did not feel at all about after being
P's.

The time Bl. was seen to walk H + Sam
very together.

Bl's act. may SWP was by associating
with SWP's in Nevada - as one of them.

From this there was someone before Paul (or
Bluh) + he with Anthony. This Bl. only
was Paul or H. when he. Bl. may have
known the Anthony better by correct full
name.

Bl. was had many friends - probably
discovered them.

On the first called H up - L D - after
night - went to above meeting to
that night & met in Bx - going -
went - only thing upset was that he
wanted to have the part of him
for wanting to go to Cincinnati. ^{Just}
about 11 - got home at 4. J. had
called about 8.

One of the things H gave for was
Reid's Co's winning process - H liked
liked on it - but he didn't tell P's
he had worked on it.

Bl. - Blawiey Pa - a boy - father on
part of boy killed on the State Tender -
mother did not see Bl. very young - father
remained - Bl. could get along with
her. Bl. went to Pennsylvania - father
did not see her - still sleep with
dead man. Bl. only child. May
have aunt.

that Bl. went to Pittsburgh on train
on a father trip and 1940 - didn't
meet who he was supposed to - just

spent a lot of money. Must have
come up when the P. was cash. But
always being broke because the business

I later gave the papers (40's) they turned
in over to Bl. in biology via foundation,
etc. Bl. mentioned a hazardous
visit to Univ. of Penn. Med. School to
get a biology cert. ^(might have been in comp with Smith?) where he told
Bl. off about the possible contact at
Univ. of Penn. was wrong, because
the contact was types who wanted to
call the cops - ~~was~~ ^{the} about
1941-42 - that is when P. and the
R's bullied Bl. pretty roughly.

On one occasion Bl. ^{got} told that being
fined in part for promising money under
instr. (on one occasion P's told him to
offer any sum at all) of P's and he
would not contact him for a year,
I then never contact him again. He
was in the - or may be seen in period of
30's + other in 40's. He actually paid
out of his own pocket.

Mr. [unclear] [unclear]
[unclear]

Several times Bl. indicated a desire
of dealing with R's - starting with the
SUP business & cutting right on up.

After H had been ?'d in NY by KBT &
G.J. - but they did not Bl. after G.J. -
Bl. laughed & ~~remembered~~ ~~what~~ if they
knew from long H. had been with the
Soviets - sitting in prison in Frankfurt &
talked with Bl. - H. worried about
family finding out (sent phone by
Dela Greta). Saw Bl. specifically
to discuss the matter with him - Bl.
living in Phila at that time. Bl. at
that time had that H. had not been told
with such nice only '46. Bl. seemed
to think that H. should not try to get
in touch with the R's, because H. would
be off'd and "that would be just the
sort of thing they would want." Bl.
never asked H. if his name had been
mentioned by H. - it was never a line
mutually understood that they would do.

On one occasion H & Bl. exchanged
words with a thin web. R. contacts -
came to call. Both were seeing Sam -
1st guy H. saw & Bl. at that

was not name of his K. contact - but
by description - both slight same man.

H. thinks that possibly Bl. had only had
one contact with a woman - on the
Russian side - Bl. does not know
Chig. Betty - H. asked her about that
since G. V. H. got info. for Bl. that
woman was not a spy, but was a full
pledged spy. Bl. must be pretty
close dealing with a woman. H. has
info. that woman was mature. Saw
the woman about early 40's.

#

Bl. used to go down to Seaford, Delaware
(where I saw Mylon - rd. New Castle, Del) -
H. to get info - made quite a few
trips down there - middle to latter part of
1940.

#

H. thinks that nearly all German Bl. made
was in N. Y.

#

Very likely in Bl's case, with Russians, in 1944
he went to Chi. under very difficult circumstances
he had no money. I think - on by coal, or by the
air - this could be for K. contact.

Bl. line of H's tail was (Faded) -
found it was SW and here it was
something big & here it was in com.
with R's. On or ^(leaf) tail. Here about
it looks H. left line of disc what
did by H. had in getting a vent to
under the tail. Side with Bl. but
might time H. had with ~~fusion~~.

4

Had a way with Bl. on a very big
big.

#

Rout. Me. Map.

① was found in -

① Fuchs in Cambridge showed to
what extent the place - while
F did give map, but when he got
to D. F. a visit to old museum - to ask
about getting some type of map - got it.

② F actually gave it to him, marked -

Note - accounts for but that he had one & one
found museum one.

6-4-50

Dr. J. P. Clark, Chief Tech. - 1st week of vacation - Mostly
Bill - Trip off.

Did not give the magnesium flare and
aerial bomb bears a.

Did get ^{from} Brochman "Buna S" process which Bill
got for Hendrick - Dr. sd. it was mostly
his own work (design). Hendrick was making
the equipment, etc for making it, so process was
not Hendrick's - H. had Standard Oil was
owner of process.

Bro spoke a lot about Bentley - said too
much about Galois.

Soviet were not interested in Br. one he left

Hendricks - Soc. ever told H. to try & persuade Br. not to leave Hendrick
H. says he gave Br. \$200 & \$50 out of our pocket. Br. too much an owner at
Alvingy.

=

B-G, ~~Pat~~ Patterson - when Br. sent
H. to make a survey - described where
had been an old brewery.

Bona S - Sam wanted Br. to go on it
somewhere like U.S. Rubber - saying to do
with Bona S. -

Br. gave Bona S to H. - 8th Ave + 34th
near N York Hotel. Gave to Sam near
6th Ave + 23rd St. 2/10-3/42. - middle
of week - at night.

Jensen's - on time - Br. late - early in am

Eschey bar - send time

Anged nearly finished - then gave
it up - then set day ad told Br. he

would get there during the evening & call
him. Later stated calling for Philly.

When Br. left Hendrix, he told H. to keep
the 17. to try get job big industry from the
Steel oil, Soudyem, U.S. Rubber. - He
would get it if under such name of
magnesium powder, aerosol bomb or DDT.

Moved the office at Br. had anything to do
with this business.

Br. then saw when H's was near with
H. went to work for him - Good Kenda -
used H.G. send him with for tel.
H. as place Br. could reach him.

Dave's report on typhewillan - only when
Soviet recalled it was because the power
was power & it was Hendrix's stuff.

Rock

2542 - son of. in Cincinnati - before
H. went to Halston ^{on way to Eastern Kentucky} Slack & wife
went to Cincinnati to see F O E Agent
Hollaway - Holl's wife ^{Ms} Harry met
H.

H. met up Rock - not there - got
addr. from father - went to Cincinnati

Hollaway good from Union of Olla. -
was on counter-espionage - true
like a wild

Can't recall why met here except probably
during period when had contact with him

Child re: Chattanooga job

H. met to Cincinnati in baggage car - had a card -

Had contact at H. - H. said that he was to
be held - something to come forward of things.

Might have been an effort - let's start to search
H. out of Rock. Hill - big blonde hair.

Black man living in a flat in a
duplex - near Montgomery, Ala. Had a
junky old car. - drove to Holloman and
afterwards drove to H & R Sta. - living
wife at Holloman's

Introduced as Mr. Martin or just Martin.

Nucha,

H & F made arrangement to have album of
ever? 'd chat him this morn. It was
subbed to look up folder on 3 or 4/74
& give a concert ^{NY Phil.} at Carnegie Hall, only
down what was played - tell Fuchs -
adjacent seats - met there. Also had
common interest in class of classical
music.

#

77th St.

Went to address - very hill - janitor only down
stair to basement - woman ahead door on way
beginning, up front entrance hall with H - asked
gate? s in Fuchs

6-5-50

Don't get mixed up for. but legit. found
a synth. rubber plate ^{or piece} - nearly hit ceiling -
H. was a book for camp on his acts
on R's ^{would} just found it again - this would
fall of '43 or '44. Prob. get mixed because
will on B's ability.

#

Must be a mass of material because was
intimately as'd.

#

Never knew Jacob Galor - close to ^{Winn}
Boy of 1947 - day that shown - 5' 10" in
3' 2" tall. H. called B. on train re:
effort - he was always busy. (at
office) H. on way to library - stopped
by office - one of office boys told Harry -
"Ken. Man whatever" - H. understood
B's name too. B. white - shaggy -
gubbed H. - "they know that you're a carrier -
B. from what they - judge - you
got to cover me up" - from Galor
under name of John - B. said it must
be that was Herb - we've got to
make of story - I've told the land
you - they would find out anyway -
you have got to know that you are in
"cover that is the way I want you."
On the of the name - flight of
Carter Handlen who was dead &
rule of story - B. handled Galor
- H. and close on what. B. who
Sh. + O'Brien 5' 2" in

After committee - put contact man
Sam - check on which left MIT
Bill Br. was coming up for himself.
Sam was on the first set H. to
Boothman - about Fall & late summer of
1940. - tried to get H. to quit work for
Penn. Sugar & get job - steel plant, May
Yard, munition plant, etc.

That night Br. asked H. in lab - asked H. if
he ever knew that Br. bought his into the
whole thing. - Then Br. made some
remarks just before H. went before C. J.

Br. from Sam & went to his office - Sam gave
Br. a pep talk - saying Br. was well, etc. -
told Sam was a recent arrival (Russian) at
the Lincoln Hotel - Room - right in
near H's room - Harry Gold or Frank
Kessler - late '42 - early '43. - a suite.
A good part of the evening, then - H. stayed
on to the off. morning. Br. was very
much interested & inquired about each one of
ways. Had already given Dana S. promise
that intent. Sam as senior, then possibly
not to use any other name. Told Sam
as a very famous writer for the S. U. & he
wanted to meet Br. personally - think he
for work done, as would Br. could do.
The whole purpose was to try & get Br.
to go with a big firm. Br. went
away with many ideas - that he was going to
be carefully legit. matter then give
stuff just to H.

Any meeting will have to be 12:00 - was
 due to meet ~~at~~ Br. org. on a
 general holiday. ~~at~~ ~~12:00~~ no call
 days before now Sam, who is Br. could
 not make it because Br. - family
 was visiting. - Had this could
 not be done. Sam. ch. & in meeting
 H. met by - Br. was closed up.
~~at~~ ~~12:00~~ ~~at~~ - Dad this was his

Sam told H. org. that Br. was a great
 officer on some such figures.

#

all meeting org. due to Colos apply to
 Sam.

#

Sam org. contact - called at home - in
 Phil - on family described a party
 to Colos. H. fruit of Fund for plane. -
 met him - glad in back - was
 would be glad to continue his activities
 on the behalf of the S. O.

#

On week H (42) came to NY. 4 times in
 an week to meet Br. and was off'd by
 one with Sam - most of meeting Br.
 didn't show up - on time H. had to
 think at the end Br. - Sam - Phil or Sam
 night - on 4th night fully saw Br. -
 each Br. - had had meeting ~~at~~
 was sub. to him del. Burns' power -
 got it & was later - saw Sam who
 literally ate H. out, for ~~to~~ ~~to~~ see
 suggesting he come again tomorrow night -
 ad. H. was all in - didn't try to see Br.

Was delighted with B's. Saw you a couple
of days - @ a pt. on 7th Ave. 157th
Henry Hudson Hotel - Jennie called her -
then was one of H & Son's fruit meeting
place - took H to Penn. Sta in cab.
Men sat there, but were there a lot
sat at table.

Smith.

Private meeting place a little Bly
in F's & 90's - southern in 100's.

- Fred -

Bl. in book - saw him - Dr. made 1st
time, and then he writes all details
I am to get to Army Hospital - H may
have with a brief report for him -
right him in detail that in hospital.

6-5-50

① Sewer pipe - none in front "the block"
was borrowed from the boy on
side - probably in ~~the~~ 41

② Kodak slide - King

③ Bag of abstracts from ~~Kodak~~ Eastman
Kodak - had slide none in it.

#

Bl - Smith - late 35

Smith - Schatz - '37

Schatz to Fred - late 37 - early '38

Sam - 38 - 40

Sam - late Sam - early July 1940 to early '44.

John - early '44.

#

Brothman -

Shack -

Yochs -

Albuquerque, Unsub -

Emergency Meeting (believe with John)

Hotel Tickets ^{to or from} - date - 7-3 days later -
Meet them. One man Bday ^{step} of Arthur
Sime - seaboard Rest. There. Had fatherly
idea waiting to go out to Cambridge & see him.
Thought he did get ticket - got late a week
in so - mail order, 6325 kindred with
the 6823 - couldn't book really - very
still here tickets. Have plan set.
date of ticket cancelled.

Flash -

H + Sh. unable to get one piece of info desired
re: developer or dyestuff - and another piece
Sh. mentioned there was a Russian working
for Eastman in the lab. Sh. was quite
broadly. H suggested contact. But
was not possible - Al got wind of -
felt fellow out - found but believed
was White Russian & wildly anti -
Soviet. Since poss. of pulling a
Buchanan - later dropped the idea.
Organic Chemicals Div of Eastman Kodak
Might Sh. May have made up own
version. H putting his on this
developer.

Bioglyphs

Daniel Klein (May 40)

May have been working at Navy Yard - was
pulled in with to include in with Joseph
Bioglyph. Thinks Bioglyphs then transfer - went
to Purdue. Hardly knew Klein.

Howard Palske (May 40 from C. Xerox)

Friend of Orszel - worked for Phos.
Lennig (now part of Rohm & Haas)
male acids & heavy chemical. Works for
E. F. Houghlan. Anti Communist.

May has filed some sort of file. Investment
& made up background.

Molton files - filtration.

6-6-50

8/46

Reich

Reich + W. H. Hordless bought the process.

Butyl Alcohol - by synthetic process -
Germ called Melle visited J. Reich
the process. Plant built at Garland -
at which time Commercial Solvents cut
price from 60¢ to 20¢ - about '36 or '37 -
plant was out. H. got complete
info to Fred on this process.
Very valuable solvent.

#

To Klara Guck - on 77th St -
of King H. took - took book by Thomas
Mann - "Joseph + His Brothers" inside
cover - put scribbles out - name
printed with address 128 W 77th St
"K. Fucks" Had book under
arm - showed man to be used as excuse.

#

Ben Smily, August Field - by Fred - actor
'38 - in drug Xania - contacted Smily trying to
get info - couldn't.

John for sent # to see Smily + tried to
"blackmail" with some info which could
have come from Smily.

#

John recontacted H. later early part of '46 which
he did not prev. tell G. etc.

4

10 or 11/49 with Russian cables told - what - out info
H. got back - which Guck exposed - which is what
Guck.

P.P.

6-7-50

Ben Smith.

1938 - was out Xmas - day nicely -
Holding morning of '38 - just passed
mid term exam - staying late in bed.
Was ~~at~~ Delandale St in Hartwell -
living with Mrs Alys Brooks - daughter
unmarried - F.N.U. Had a room -
let's only boarder.

Apr. 13. 1938. There was a phone call from
H - was going to football Xmas -
Tulsa. That afternoon Mrs Brooks
and some friend of yours - and
she didn't like her woman - told
her Mrs. would be in bed - fr.
said "I'll get him out"
Was ~~at~~ in Councils - and
to her when it's late even -
Fred was coming up to see H.

H. ad. left no home address. Just
family, girl friend and Penn.
Syracuse from his address in Cin.
H. and went on C.O. morning from
Cinc. to Rich - Resident Dr. Clark
to wear postage.

Had letter to get in to - found
was 70 miles in 10 min (H 45
min for town by bus) - had
ad in - the set for - H
Had on bullet - Mrs. B. had pub
only Xmas dinner - Duplit's
and downtown - Cincinnati area -
with and (get snow). H
had really to many also + they

had a wonderful present for H. was high, got all right when I was in a fair way, when I was out of the belly with H., but I present it to H. to get a good will from Ben Smith of Bea Smith - he didn't give an address - but I lived in Dayton, Ohio. He is to go to see me I would like to see him. I would like to meet H. I would like to see him in Middle Ohio. Thank H. to RR Sta. in sub. All H. to say to S. "fly S's old schedule, then see his regards" was too good for S. I got what he had already bought - small, but H. will tell what it was - and very valuable. I will give H. the gift. H. let go. understood that he would go to Toledo.

H. went to game.

I left late (last) out of and saw Ben - looked up in Tel. Directory - decided to the house - about 15 minutes for each of Toledo - house out on corner st. but on, up hill didn't have a view of S.

Went to home, very hell - didn't work, looked - asked Ben a name - it was for Ben Smith. He stood there & H. was surprised. He said "oh, yes" H. asked if he could come in - yes, so I called in. He let me in.

strong public (elder) there - cut
would be at all. He got out
of there pretty quickly (about 1/2 hr).
I had lunch on a table at
Xavier, gave name of H. G.; then
Stan & gave him the gift.

I'm full of the public - got
when that 5 in a ^{circle} ~~circle~~
eng at night's end. You're bro.
I am - would be with Carl Kerzick
in in the night. I will write to and
M. at the house. Got the really
was lunch under, altho finally
not making.

H. got there at 7 - 8 PM - sat there
all evening & didn't get up
but not at all. They gave from
Boston, Mass. Had been a student
at MIT & he knew Stan there - did
not give Stan's last name

P. & M. arrived at 4 am & Smith
wants to know all about Stan. won
to see (asked on leave). H. suggested
to S that he was leaving - S not
too unhappy to see that go. Had
S. to die in his town - S
and his downtown - slipped on
near little park. H. sd. he
would be up to see S in person.
(Phil had ~~to~~ asked H. to find
out if S ~~should~~ be in East in
new future) H. gave S 5000
Bancroft St, Phil a line with a red

if in next night will be in I
looked at it + took it. Called it all
in Boston see.

H. named - didn't like to be - high
got about - was del. not matter
K. to X. in.

Went to Middleton, this + built
really will find a week later
a a Sunday - found some notes
to him if 5 years 14 in they - it
could be known if this was the right
guy. - He said 5 years being careful.
He said just wrong if - just do what
we say. H. del. usually wrong +
didn't like it - Found it like it
was not, it would cost to see 5.
It - it was had to go to school +
find to look out - found ad "I don't
would you like for - letter to go to
her and father of X. in, say in
stating but you were - number of
the C. P. 17 ad out from -
Found we don't have to say that -
in any way of thing. He really
wasn't hiding.

He del. all it. really. For. ad.
found in 14 number after the
New Year.

Only - 2 mail in 39 + one actually
2 - 40 for to find X. in. ad
at home in H. in. all time,
It can understand

took train to Dayton - 5. want board
 of meeting, and I had - I had had to
 make some meeting with 5. from
 in middle town. That - in
 meeting - '39 (about Xing '39) and also
 as - 1940. All other meetings with
 quite a common name -
 Shillito's - in Mitchell Plaza

I let '39 Mr. went to him and
 he had seen 5. off - I had you
 + he didn't like to go there.

#

Q 1940 - on July 2.

and - out to Phil - saw in gate from
 a very tall. Feb - '40 saw in
 probably 1/41 - saw light of Hardy
 again - didn't get in jail with
 him. Went out to Dayton - didn't
 talk with them - not when Eric
 out to Phil. - he'll give him - didn't
 remember.

I let 1 on July 2/41 - in NYC - saw
 gave H 304 records for sum of about
 \$400 - \$200, among, about 4,000 - 120
 Pcted - about '36 - '37, probably latter -
 photographs - sealed down. Red'd
 \$100 for Feb. - 15/ Ben full - my
 out to aunt. All page of the
 descr. a spatial summary to her with
 another design (photocopy) -
 allowed to be clear rule. One was
 to write the correction. one man
